AUTOMATED REMINDERS AND ALERTS

Managing tasks day-to-day are extremely challenging in this new environment. Help establish a cadence of accountability through the use of automated reminders and alerts:

- ➞ Remind staff to wash hands
- ➞ Create top of mind awareness for washing resident's hands
- ➞ Establish accountability for cleaning high touch surfaces with frequency

SELF-AUDITING TOOLS

A series of self-audits reflecting the most recent guidelines released by CMS are prebuilt and available for you to use as often as you like to be sure your community is in compliance.

- ➞ General Standard Precautions
- ➞ Hand Hygiene
- ➞ PPE
- ➞ Transmission-Based Precautions
- ➞ Resident Care
- ➞ IPCP Standards & Procedures
- ➞ Infection Surveillance
- ➞ Visitor Entry
- ➞ Education, Monitoring & Screening for Staff
- ➞ Reporting to Residents & Families
- ➞ Reporting to CDC & Prevention
- ➞ Emergency Preparedness

COLLECT VISITOR DATA

Welcome visitors back to your community confidently and promote safety for your residents and staff with this automated screening tool, available for staff & visitors.

- ➞ Visitor logs for guests and staff
- ➞ Reporting capabilities for tracking
- ➞ Data collection to help with contact tracing while protecting HIPAA laws

Staff & Health Care Providers (HCP) (e.g. agency staff, regional or corporate staff...)

Perform Hand Hygiene

☐ Excellent

☐ Satisfactory

☐ Needs Practice

N/A Fail

Employee used sanitizer in place of soap.
ROOT CAUSE: P.E.A.K.

8:00

< Back Perform Hand Hyg...

Complete Section

Employee used sanitizer in place of soap.

ROOT CAUSE: P.E.A.K.
Product
"Soap was empty, staff not notified"

CORRECTIVE ACTION:
"Set new alert to check dispensers at shift change"

DOCUMENT ROOT CAUSE ANALYSIS/ CORRECTIVE ACTION

Take the extra step during audits and observations to document root cause analysis as well as corrective measures anytime tasks fail. Records are kept for reference and can be exported at any time for proof of effort and commitment to ongoing improvement.

- ➞ Notes and photos fields allow for documenting
- ➞ Reporting can be accessed at any time
- ➞ Records can be used for survey as well as employee reviews and can help identify trends and training opportunities

WHY SAFECHECK 360?

- ➔ Automated capabilities help to ensure mandatory tasks don't get "missed" or pushed back because of a busy schedule.
- ➔ Reports can easily be accessed, sorted and reviewed by administration as well as clinical team & surveyors.
- ➔ Digital tools are easily embraced by team members today, and will likely have a higher rate of success throughout your communities.

BUILD AUTOMATION AND ACCOUNTABILITY INTO YOUR SAFETY TASKS – IN REAL TIME!

Standard Operating Procedures are a great first step as communities work to ensure a safe environment for residents, staff & visitors. However, a program is only as good as it's follow through. Establishing a digital solution provides you with a sustainable and automated system to keep track of time and ensure important tasks are completed, allowing you to focus on your residents.
