## **Krissy Niemczura**

Vice President, DMI

With more than three decades spent working in data, Krissy is an expert on all things nonprofit data processing and data management. Krissy's deep expertise allows her to understand a client's goals and give them the strategies and solutions needed to support strong data-driven fundraising decisions.

## **Trent Johnson**

Solutions Architect, DMI

Trent is a solutions architect at RKD Data Management, with a decade of experience building products and solutions that make it easier for organizations to use their data to make strategic decisions that unlock breakthroughs. He works alongside strategists, analysts, and database managers to solve engineering problems that directly impact the form and function of a nonprofit's data.
