

MAZZELLA DEVELOPED A SYNTHETIC WEB SLING TAG WHERE THE LETTERING WILL LAST THE LIFE OF THE SLING. THE TAG IS A CLEAR, DURABLE WEB SLING TAG CALLED **DURAKLEAR™**.

This tag will replace the current orange style tag. What makes this tag so great is that the printing is on the inside and the copy won't rub off.

We have done extensive testing to prove the tag's durability and there will be no additional cost for this new style tag. We also have the ability to private label on larger orders or on a customer specific request. See photos for the different options that are currently available.

#### BENEFITS:

- Lettering remains legible for life of sling
- Abrasion resistant
- Dirt, oil, and grease wipe off
- Ease of inspection under the tag
- Tag has UV inhibitors
- Custom logos available

#### ASME B30.9 STATES...

"Sling identification shall be done by the sling manufacturer."

"Identification of the sling should be maintained by the user so as to be legible during the life of the sling."
