

LEARN MORE ABOUT OUR RIGGING REPAIR BINS

INSPECTION AND REPAIR OF RIGGING GEAR JUST GOT EASIER!

Eliminate searching everywhere for rigging equipment to inspect.

- No more need to call and arrange delivery of rigging equipment in need of repair.
- No more guessing when rigging gear needs inspection.

All you have to do is toss your rigging gear in the Mazzella-supplied repair bins and we do the rest!

- We will schedule pick up.
- We will pick up your bins of slings, hoists, lever tools, fall protection products, and/or any rigging hardware you may have.
- We will drop off empty bins when we pick up the full ones.
- We will inspect your rigging gear.
- We will electronically send you detailed inspection reports to keep you OSHA-compliant.
- We will quote your repairs or replacements to keep your equipment at optimal levels.
- We will return your inspected, repaired, and new equipment back to you.

Then, we will do it all over!

It saves you time and money. It helps keep your inspection records in order. Most of all, it helps you keep your critical lifting and rigging equipment in safe working condition.
