

File Reputation

Intro

ReversingLabs has the largest database of goodware and malware files in the world allowing for the most reliable and up-to-date threat classification.

File Reputation Overall Statistics	ReversingLabs	Competition
Reputation Database Size	12 Billion Files	2.4 Billion Files
Privacy	Default	Custom Setting
Files analyzed per day	8 Million	2 Million
File types supported	4,000+	100
Processing limits (max size of processed file)	2GB	200MB
AV Vendors	48	72
YARA match limit	No Limit	10K per ruleset
New malware identified per day	2.5M	800K
Retro-Yara Hunting Lake - 90 days dataset (estimated size)	400TB	150TB

Benefits

When it comes to malware, more information is better and with millions of new malware samples seen every day it's important to have the most reliable information possible. ReversingLabs TitaniumCloud provides in-depth threat classification from our private, curated dataset giving you the confidence you have the best information possible when making security decisions.
