

# CLOUDTICITY OXYGEN™, MANAGED CLOUD SERVICES FOR HEALTHCARE

---

Managed Services ~ Managed Security ~ Managed Compliance

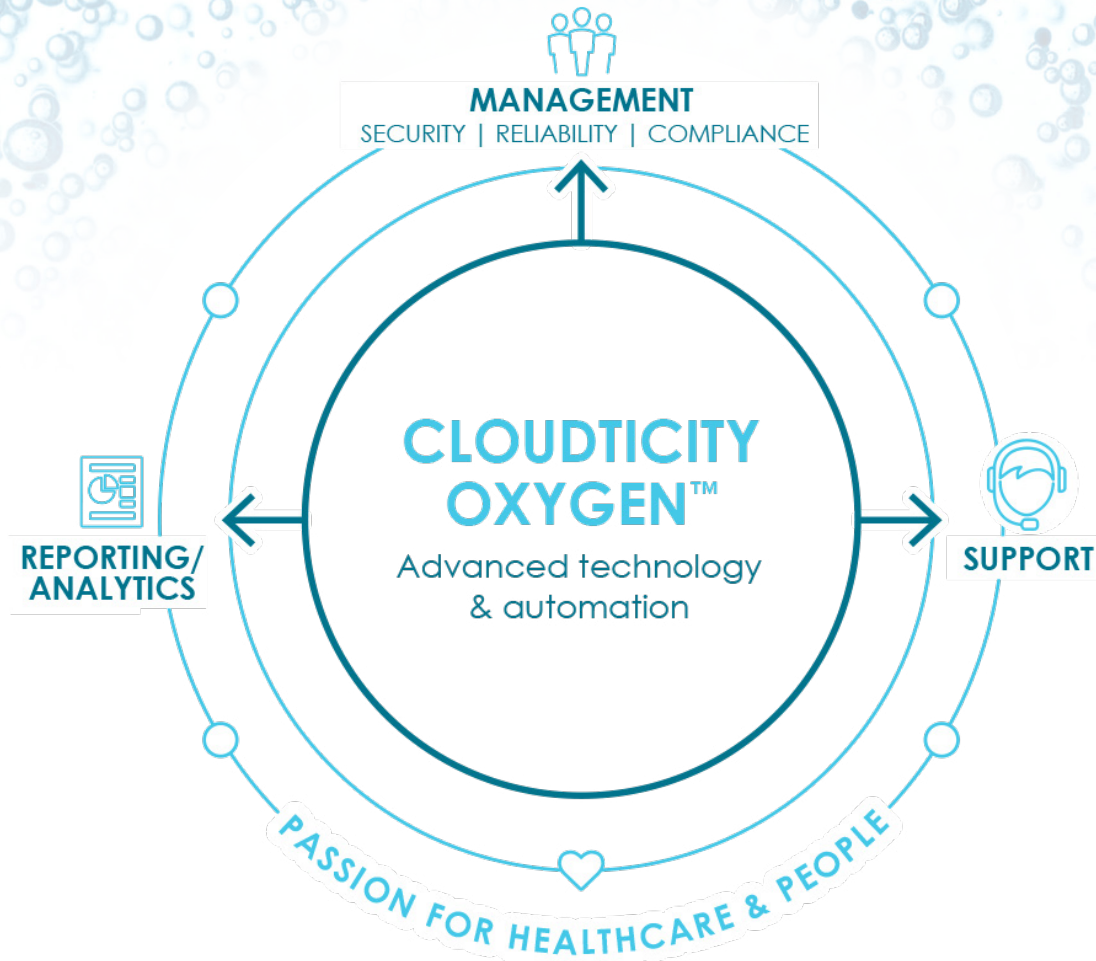

[cloudticity.com](https://cloudticity.com)

## Velocity Through Automation

Cloudticity Oxygen, the world's first and only 98% autonomous managed cloud solution for AWS and Azure, allows healthcare IT to unleash healthcare ingenuity through groundbreaking automation and world-class cloud expertise. By offloading infrastructure operations, security, and compliance, IT leaders can free up resources to focus on value-adding activities.

Experience unparalleled reliability, performance, security, compliance, and cost savings as you develop, deploy, and scale healthcare's next breakthrough applications.

**HITRUST**  
CSF Certified

## Solution Includes:

### MANAGED SERVICES

Fully automated backups, patching, logging, and analytics. Includes comprehensive product and feature support, event and incident management, cost optimization, and managed Kubernetes support.

### MANAGED SECURITY

Continuous monitoring and management to ensure high availability and performance as well as a 24/7/365 help desk. We deliver cloud infrastructure you can depend on.

### MANAGED COMPLIANCE

Over 1,000 continuous compliance checks mapped to HITRUST controls and HIPAA CFRs that scan VPCs and operating system configuration according to HITRUST, HIPAA, and CIS definition.

### CLOUD COST OPTIMIZATION

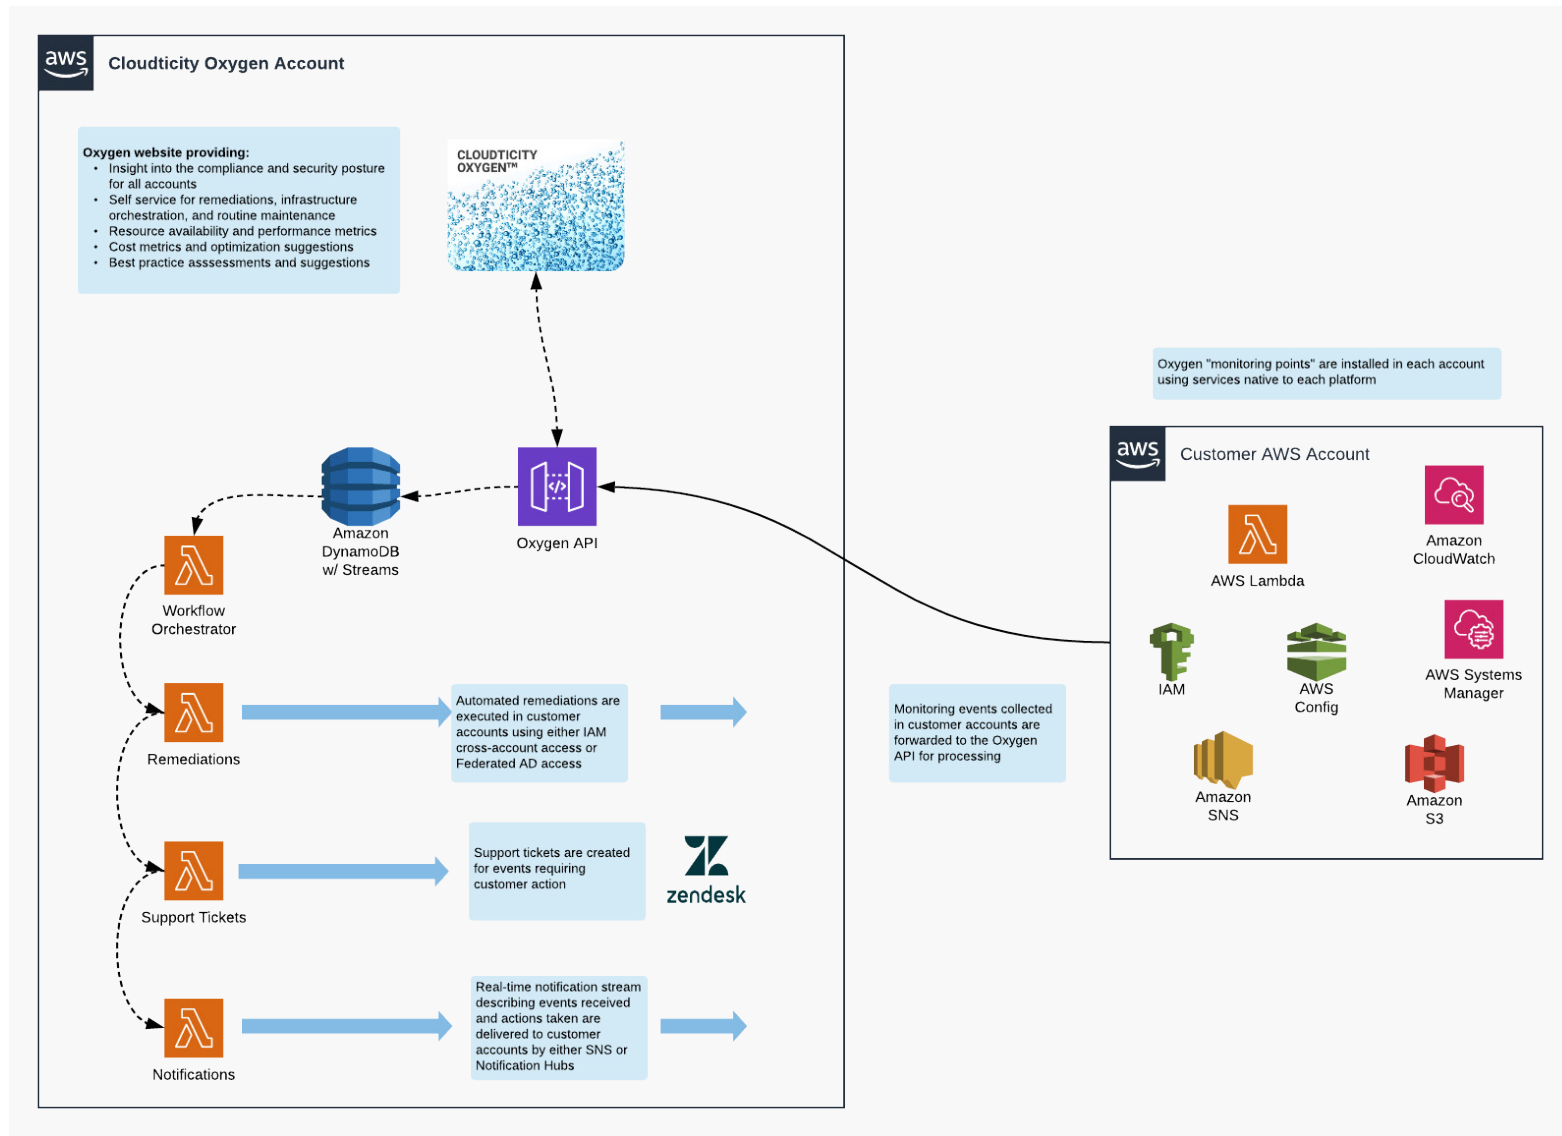

Automatically identify wasted spend and underutilized infrastructure. Save 30% on cloud spend in the first three months.

## Why Cloudticity Oxygen?

- **TRUSTED BY TOP HEALTHCARE ORGANIZATIONS:** Michigan Health Information Network (MiHIN), Diameter Health, Revel Health, Palmetto, Averahealth, Kumanu, Caredove, and more.
- **STRONG FOCUS ON SECURITY:** HITRUST certified, Cloudticity has never had a breach in 9 years of business.
- **SELF-SERVICE MODEL:** No need to submit a ticket and wait to provision or retire infrastructure. Just use our preconfigured template and get to work on your objectives.
- **CLOUD AND HEALTHCARE FOCUS:** Born in the cloud and exclusively servicing the healthcare industry.
- **MAXIMUM HITRUST SUPPORT:** Providing 200+ inheritable/partially inheritable HITRUST controls – more than any provider in the industry – for streamlined compliance.

# Oxygen Architecture on AWS

“We chose Cloudticity because of its strong alignment with HITRUST and highly competent cloud expertise.”

– Scib Ebel,  
SVP of Technology/CISO, Revel Health

## CASE STUDY

# Health Tech Company Scales Without Limits and Maintains HITRUST

### Business Need

Revel Health determined that moving to the public cloud would solve its need for agility, flexibility, and scalability. It needed a cloud partner that was tightly aligned with healthcare and HITRUST.

### Solution

Cloudticity deployed Oxygen to meet Revel Health’s needs for continuous security, compliance, and reliability.

### Outcome

- Scale without limits to meet demand at peak times
- Increased reliability and uptime
- Increased experimentation; easily spin up and tear down environments
- Lower operating costs
- Continuous HITRUST compliance and shorter reassessments and recertifications
