NATURE
NATE'S
— HONEY CO. —

Color and cut out the characters below, and place them in Nate's snow globe!

Want to make your globe look extra wintry? Take your snow globe to the next level. Use a hole punch on the white spaces of this page to make “snow.” Alternatively, use glitter for a little extra sparkle.

Trace the snow globe's circle onto the bag, then cut it out. Place all your “snow” onto the winter globe scene. Add glue to the edges of the clear circle you cut out, and place it over the globe along the outline. Lay flat to dry. Once dry, shake your globe to watch all your characters frolicking in the snow!
