Name, label, and color the different parts of bees and flowers.

CAN YOU LABEL THESE BEE PARTS?

antenna abdomen
wings thorax
legs head

CAN YOU LABEL THESE FLOWER PARTS?

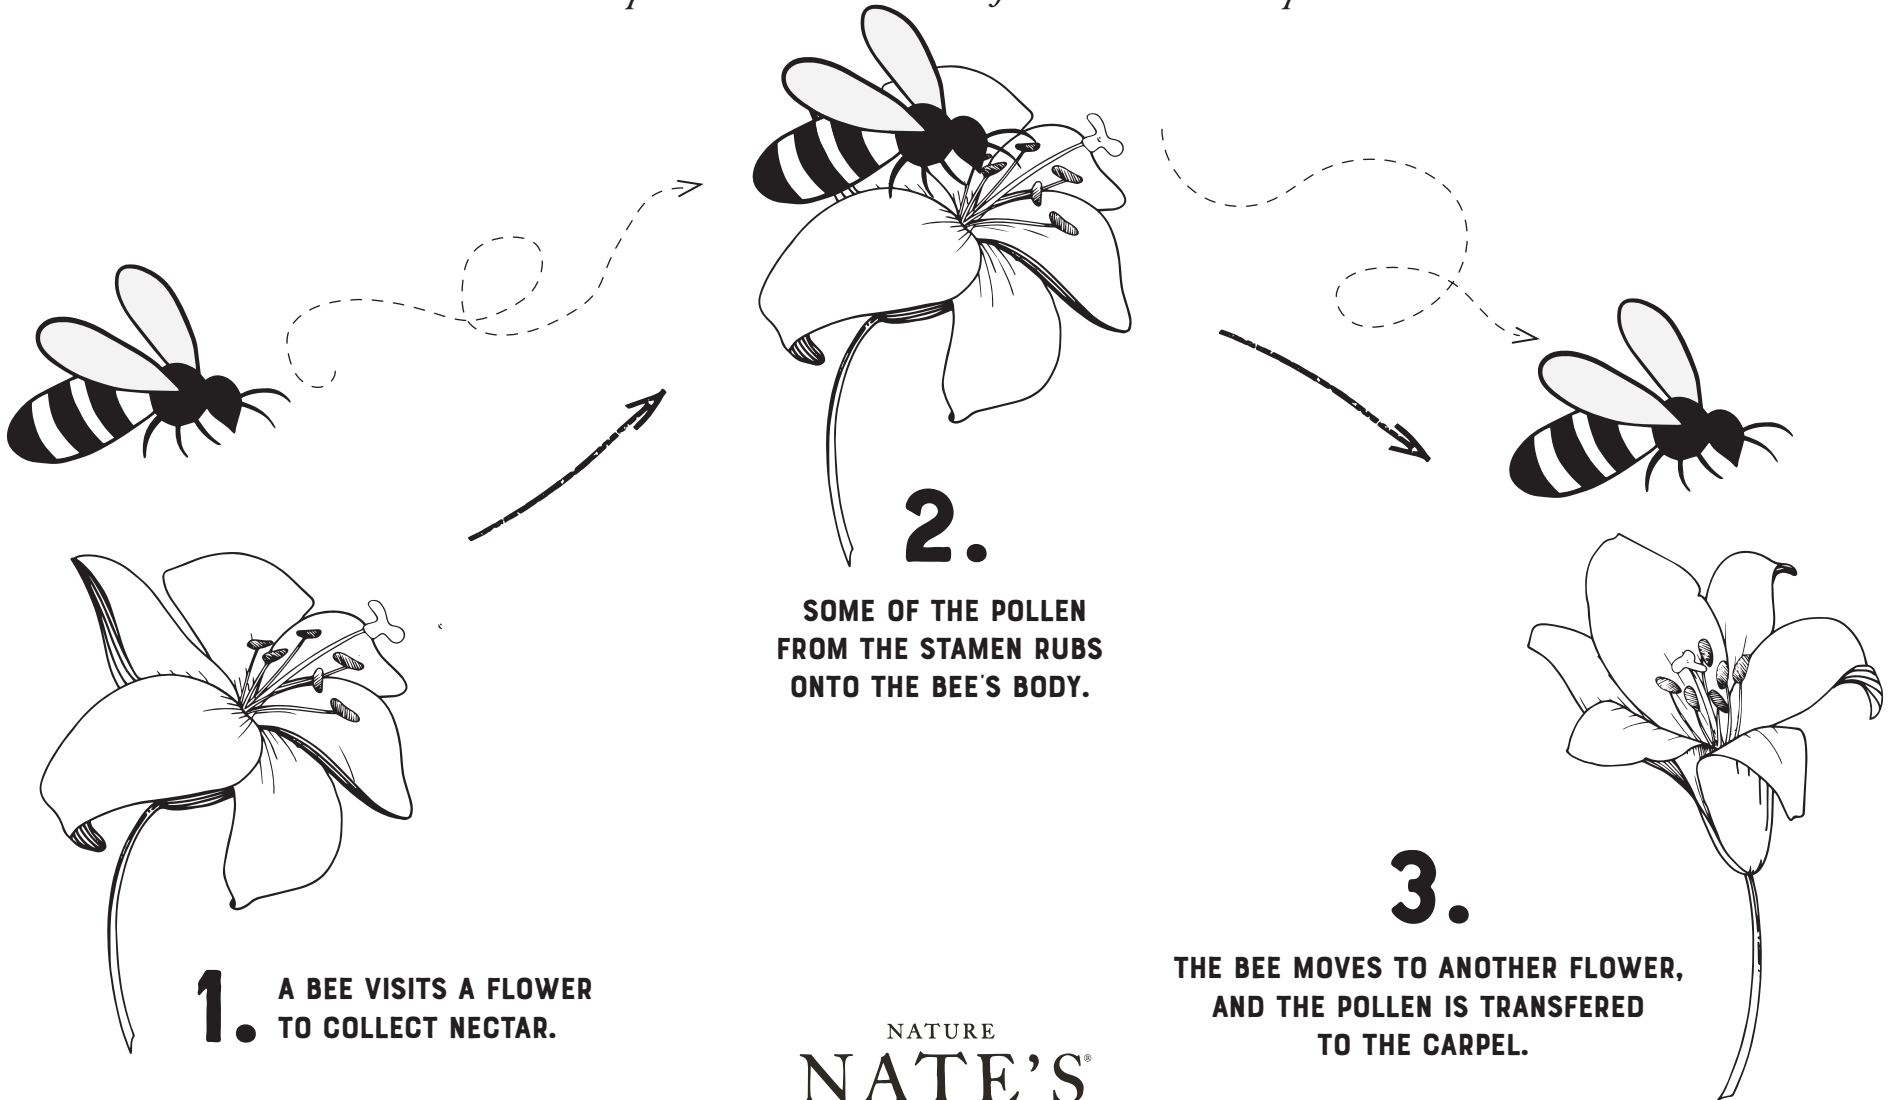

sepal
stamen
petals
stem
carpel

What is pollination?

Color along as you learn about pollination.

Bees and other garden friends are very important workers. They carry pollen from flower to flower. Flowers need pollen to make seeds and fruit. This is called pollination.
