reduced footprint allows
teams to work in a single
system, eliminate manual
data entry mistakes

Collaboration in Numbers

400+

Internal Users

1600+

External Vendors

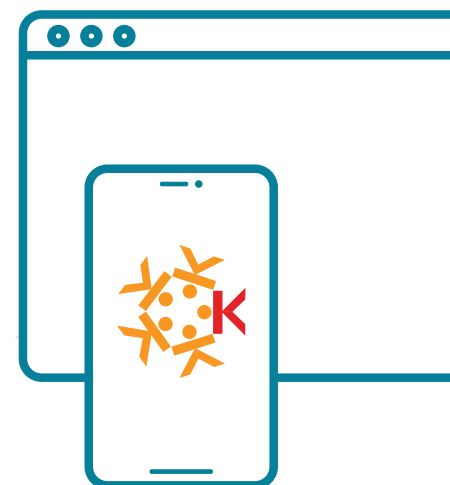

Build to accommodate

44,000

additional seats

40

custom workflows
and processes
(apps)

Kahua for Education

Kahua significantly impacts school districts' ability to manage capital programs. From scope to cost, schools can oversee the entire construction lifecycle with a focus on strategically designed spaces with the flexibility to adapt to regulations and processes for any project or program.
