

The Easy Button for Buying a Project Management Information System

Choosing to purchase your next project management information solution (PMIS) using the GSA Schedule has some serious benefits.

Say good-bye to the 6-month procurement process. Skip the long, arduous RFP process and get up and running in a matter of weeks – not months.

Forget the fine print. With pre-set terms & conditions, the GSA Schedule can get you to work sooner without the worry of lengthy legal reviews and revisions.

Make budgeting simpler by knowing your cost upfront. With no hidden costs, you will be able to plan your budget with real numbers year over year.

Know your data is secure. Companies on the GSA Schedule must adhere to the strictest data privacy and security standards so you can feel confident your data is secure. Kahua is FedRAMP Authorized.

Kahua is proud to be the GSA's PMIS Vendor of Choice - the industry-standard for government agencies. Federal, state, and local government agencies may purchase through the GSA Schedule. Check with your procurement team to learn more.
