Flexible Government Solutions to Fit Your Needs

Public sector programs and projects face unique challenges that require agile solutions to optimize efficiency, accountability, and security. Each year the focus on governance and transparency heightens as constituents expect to see more value delivered to the community and have a clearer understanding of how public funds are being spent. These highly visible projects require detailed management and extensive collaboration throughout the entire lifecycle. Kahua makes that easier. With Kahua, federal, state, and local governments can get up and running in a matter of days, create a central point of all project data, and streamline reports and auditing.

"In Kahua, we saw some key differentiators, most importantly, the ability to easily build custom applications that conform to our business processes rather than us tailoring our business processes to the system."

- Jeff Wilson, Engineer Project Manager Pennsylvania Turnpike Commission, after saving $5M per year.
