STELLAR VALUES

We are very passionate about working with our clients.

We understand our clients' business.

We will match our products and services to our clients' needs..

We value honesty and corporate integrity and strive to preserve these values as we conduct business around the country and the world.

Stellar's growth depends on the success of our clients.

We will measure our success by our long-term client relationships and the work they reward us with.

We will measure our employees for their work with our clients and their contribution to Stellar's mission, and reward them fairly.

COMPANY OVERVIEW & HISTORY

Stellar Services, Inc. was founded in New York, N.Y. in 1993 by a select group of system engineers in the construction project management industry. Stellar's initial purpose was to provide customers with the benefit of high functioning IT infrastructure.

In 2001, Stellar's World Trade Center office was destroyed; the airline and airport industries - two of Stellar's primary customer industries - went through a major upheaval which required Stellar to realign our business focus. Stellar expanded our solutions to include project management, capital planning, content management, business workflow management and asset management to some of the largest public and private organizations in the country.

Stellar now has over 20 years of experience with

government agencies and commercial and/or private industries, including Education, Energy, Utilities, Pharmaceutical, as well as a breadth of experience in several veins of the Transportation industry: Ports, Subways/Metropolitan Transportation, Airports and Airlines.

Stellar brings an arsenal of sophisticated technology to the field, and we work one on one with our clients to ensure that the solutions fit their unique needs. By trusting Stellar to put these solutions into place, clients have greatly benefited from notable improvements which were a result from our more efficient systems and processes, while drastically reducing their costs.

Stellar has formed strategic partnerships with many Original Equipment Manufacturers.

ENTERPRISE CONTENT MANAGEMENT

Stellar Services delivers Enterprise Content Management, business process automation and business process re-engineering solutions to some of the largest public and private organizations in the country.

Stellar's ECM solutions offer our clients the following benefits:

- High-page-count, complex documents such as business contracts and construction design specifications
- High-volume, externally sourced documents such as invoices from vendors
- Large format documents including engineering blueprints and maps
- Exports from legacy and desktop systems not limited to spreadsheets, reports and data sets
- Non-document media such as pictures and videos

- Allow non SAP users to access SAP content, and SAP users to link Content to SAP Transactions.
- Ensure regulated content is protected and appropriate content is readily available
- Provide Mobile enabled access to Central Content Storage.
- Enable control of SharePoint Content
- Enable ability to Archive SharePoint sites and reconstitute Sites as required

Stellar's status as a Service-Ready Partner for Microsoft SharePoint, as well as a Premier Partner with OpenText, demonstrates our dedication to providing the best ECM solution to our clients, our familiarity with those solutions, and how they can enhance our clients' productivity and efficiency.

Stellar Services has a wealth of experience providing Enterprise Content Management solutions. Oftentimes, clients require that Stellar works within the confines of existing yet disparate systems that are still in use, an area in which Stellar is particularly accomplished.

Stellar has accomplished functional integration between legacy systems and solutions such as Primavera P6, Primavera Contract Manager, Primavera Unifier, SharePoint, HostBridge, EcoSys, ERP System such as SAP, JD Edwards and PeopleSoft.

Regardless of the difficulty level within each unique customer environment, Stellar has consistently delivered the following solutions to clients, resulting in appreciable cost savings:

- Determining the single source of truth by enabling users to find the correct document efficiently
- Automation of document and contract systems to ensure that state and local agencies are operating within regulatory compliance guidelines through adequate records management
- Faster e-discovery resulting in lower litigation readiness costs
- Increased collaboration
- Increased access to correct documents, policies and procedures
- Increased document security
- Lower storage costs

CLIENT'S TESTIMONIAL

“Stellar was consistently determined to deliver a product that met the unique needs of the OIG and did so enthusiastically. Stellar was a pleasure to work with and we would recommend them for future work to any organization seeking a solution to a complex or difficult in a personally interactive environment.” — a major transportation agency in NY & NJ

ENTERPRISE PROJECT PORTFOLIO MANAGEMENT

Stellar Services delivers Enterprise Project Portfolio Management solutions with the ability to improve a range of EPPM processes such as:

- Being more accountable and efficient in budgeting and financing
- Allowing contractors to submit invoices online and automate the approving process
- Providing ability to monitor the construction schedule and make sure it stays on time and within budget
- Alerting users regarding contract issues in a timely manner to minimize claims
- Using earned value method
- Planning multi-year capital programs
- Integrating scheduling and ERP systems

Stellar Services has assessed current Capital Controls Systems identifying gaps in current use of the system, business processes and developed strategic plans for upgrades and add-on solutions and upgrades / replacement

solutions. Our staff has the breadth spanning all facets of Capital Controls and Program Controls Systems and Business Processes.

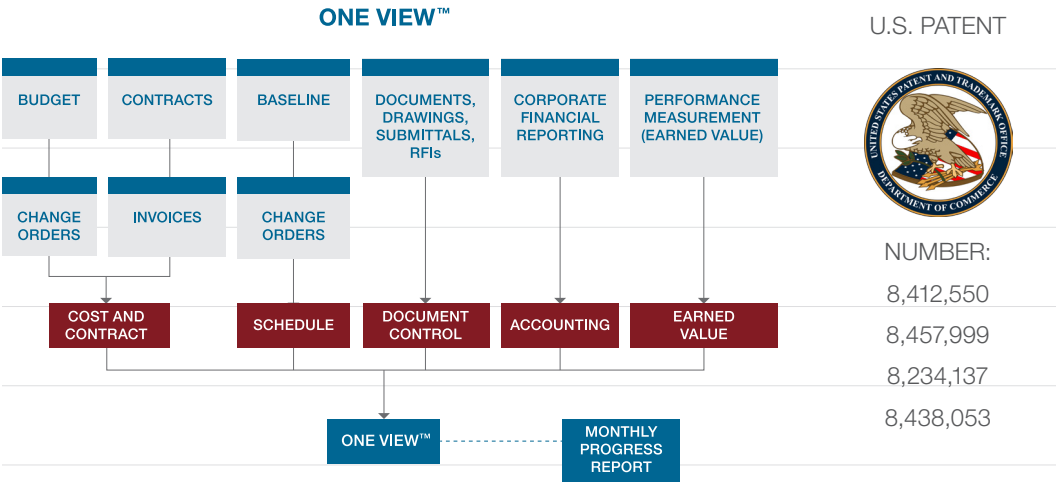

Stellar Services can offer alternatives and optional software supporting these processes. This includes:

- SOLIS - An automated On-Line Invoice Processing solution which allows contractors and vendors to submit details and supporting backup material against Professional Services and Construction Contracts. This system monitors and reports M/DBE Utilization and tracks the retention payment process.
- ProjectView - a custom Project Management tool developed for smaller counties and agencies. This solution tracks project status, payment status and supports adhoc reporting tools.
- Design Reviews - a SharePoint solution allowing designers and the Project Team to formally track comments and the review process.

Stellar OneView™ Solution

Built for generalist instead of specialist, from Project Coordinator, Administrator, Project Control Staff, Analysts, to Executives

Our OneView Management Dashboard is a Business Intelligence solution applied to the project and program management domain. It accommodates a broad Array of legacy systems to meet the needs in project planning, budgeting and financial operations. It can provide graphical charts and reports, standardized information presentation, and significantly enhances project support.

OneView delivers the following solutions to our clients, resulting in appreciable cost savings:

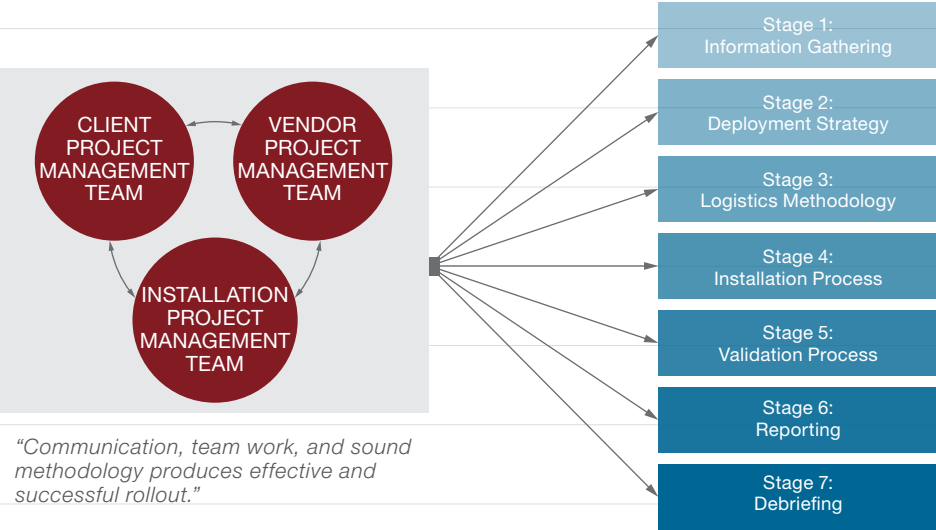

- Change Management
- Full Project Stage Accountability
- Optimization of Project Timelines
- Planning, Design and Construction Management
- Optimization of Resource Allocations
- Scope, Budget, Schedule, Cost, Status, Risk, Contract Management
- Optimization of Project Budget Management
- Activity and Progress and Dashboard Reporting
- Dynamic User Participation in a Secure Environment

CLIENT'S TESTIMONIAL

"We were very gratified with the quality, integrity, and level of professionalism built in to Stellar's day-to-day work and ultimate deliverables. It is, therefore, without reservation that we readily recommend Stellar Services."

— A County Department of Transportation in the State of Georgia

IT INFRASTRUCTURE SUMMARY

Stellar has consistently delivered the following Core IT Services:

- Infrastructure Design and Setup
- System Maintenance
- IT Systems Rollout and Refresh
- IT System Managed Services

Stellar's comprehensive set of IT solutions helps resolve:

- Upgrading organization-wide operating systems within a short timeframe
- Providing On-site expertise to manage IT hardware lifecycle
- Migrating from on premise to cloud environment, i.e. Office 365, Microsoft Azure, etc.

- Implementing controller based wireless network
- Implementing network security system
- Provide senior level resources to resolve any system issues
- Enhance and optimize system performance
- Leveraging existing hardware where possible
- Virtualization to reduce hardware costs and footprint
- Standardize hardware to reduce maintenance costs
- Assess, Configure, and Optimize application performance through professional system "right sizing" and fine tuning
- Custom configuration and integration of IT hardware

ENTERPRISE ASSET MANAGEMENT

Stellar Services is pivoting our focus to Enterprise Asset Management solutions, helping modernize the fleet operations of large government agencies to manage their assets, specifically vehicle fleets.

Stellar can provide services that address a wide variety of asset management concerns, such as:

- Reduce vehicle ownership costs
- Extend the useful life of vehicles
- Increase equipment availability
- Increase warranty recovery
- Optimize inventory levels
- Improve labor productivity
- Enhance customer satisfaction
- Ensure regulatory compliance for vehicle management, maintenance and parts inventory management
- Implementation of fleet management boosts efficiency, increases uptime, and reduces costs.

CLIENT'S TESTIMONIAL

"Stellar consistently completed work on or before schedule. Stellar is able to work independently and often go beyond their work scope. Stellar exceeded the technical requirements in many instances. They have the ability to scale up or down depending on the job size. Stellar has excellent staffing capabilities as demonstrated by their ability to deploy the adequate number of staff depending on job size and time frame needed for completion."
— the biggest social behavior agency in NYC
