

# LORIN

## **The Lorin Look** **Weathered Collection** ***RUST***

*(Interior Anodized Aluminum Sheets)*

**REFLECT YOUR VISION**

In the past couple of years the interest and demand for weathered materials has continually grown within the architectural design market. Enter, Lorin Industries, Inc. **weathered Rust**, a weathered rust look on anodized aluminum. This new product provides the aesthetic appeal of a weathered rust look while still providing strength and durability unmatched by the competition. The weathered rust look is not a byproduct of the elements, but is a durable anodized aluminum finish that resembles the real world look without the help and/or degradation from natural elements. This new product will be available in 48.5" x 96" sheets with no minimum order quantity and is offered in .025 gauge.
