People Being Notified

Alert	Name	Email	SMS Number	
SpO2	<input type="text" value="Name"/>	<input type="text" value="Email"/>	<input type="text" value="999-999-9999"/>	
SpO2	Rebecca	rrussell@pmd-healthcare.com	484-664-2632	

4. If you also want to send email or texts about this alert, complete the fields in the notification table at the bottom of the page and click the green plus sign to save.
5. You'll receive an alert next time the patient has a reading outside of the parameter set. You can always go back into the patient's profile and adjust the alert as needed by following these steps again
