

Level K Geodes® are 48 unique books organized into four modules. They are designed to enable students to apply their growing phonetic knowledge while engaging with exciting content and beautiful art.

The first half of Level K contains Wordless Picture Books, which boost students' knowledge of story structure and vocabulary, and Sound Search Books, which grow students' letter-sound awareness. The second half of Level K contains Duet Books for children to read along with an adult while building their decoding and word recognition skills. Knowledge building occurs within books, across sets, and throughout modules, helping students develop a deep understanding of the module topic.
