

Uninstalling Walk Analyst

>>Uninstalled WalkAnalyst from windows control panel.

>>Remove the installation folder (Innovative Neurotronics), It resides in "C:\Program Files (x86)\\" by default if you have not changed the installation location.

>>Install the WalkAnalyst

Your old patient files are located here on the old computer: C:\Documents and Settings\All Users\Application Data\WalkAide Patient Data. You can copy and paste the folder to the new computer.
