The easy-to-use **portable surface gaging system**

Pocket Surf® IV | Portable Surface Roughness Gage

The Pocket Surf IV is simple to use and easy to read, displaying measurement results of Ra, Rz, or Rmax at a glance. This portable surface finish gage employs Mahr's unique MarConnect universal interface which allows for USB, RS-232 or digimatic output of data by cable selection.

This pocket-sized, economically priced, completely portable instrument performs traceable surface roughness measurements on a wide variety of surfaces. Additionally, it can be used confidently in production, on the shop floor and in the laboratory.

Pocket Surf IV complete kit

A wide selection of stands, accessories and application-specific probes are available
