

Building Sustainable Retirement Communities

Marston Living Beacon Hill teams up with leading solar solutions provider to create a new solar system design for their luxury retirement village

About the Project

Marston Living is a retirement village operator and a subsidiary of Marston Group, a luxury homes provider with over 20 years experience in the industry. The company is setting a new standard in luxury retirement living and is committed to providing communities with exceptionally crafted homes. Their villages are thoughtfully designed and feature the highest standard of fixtures and fittings.

To support Marston Living achieve their sustainability goals, Smart Energy Answers (SEA) installed the leading panel technology from Canadian Solar and Fronius Primo inverters to further increase the efficiency of the system.

The installation took place in November 2018 and was completed within 4 weeks.

About the Installation

- **Location:** Beacon Hill NSW
- **Solar Panels:** x336 Canadian Solar (275 W)
- **Inverter:** x28 Fronius Primo (3kW)

The Challenge

- To find a competitively priced solution that's tailored to their needs.
- To find a solution that will help them achieve their sustainability goals.
- Partner with a provider with quality tradesman and with extensive experience in the industry.

Why Smart Energy Answers?

- Leading solar provider in Australia
- Authorised dealer of LG
- CEC Approved Solar Retailer
- Combined 100 years' of experience in the solar industry

The Solution

- The homes will be energy positive with 336 Canadian Solar (275W) panels which brings Marston Living Beacon Hill's total PV capacity to 92.4 kW.
- The solar system solution features 28 Fronius Primo (3kW) inverters to provide individual residences energy savings.

The Result

- The estimated savings in the next 25 years is projected to be over AU \$800,000.
