

# Contracting Methods

Unison Marketplace has a new feature that will enable you to easily identify whether you are using Lowest Price Technically Acceptable (LPTA), Tradeoff, or Sources Sought.

When posting a buy on Unison Marketplace, you will see a new section included on the Start Buy screen labeled 'Contracting Method or Sources Sought (RFI)'. You can also provide any specific Criteria you require, if applicable.

**Note:** The Unison Marketplace team can prefill the Contracting Method for your Agency if you desire.

**Tip:** Your Unison Marketplace Account Team can pull reports on buys you have posted based on the Contracting Method selected.

The Contracting Method you choose will be listed under the bidding requirements Sellers see and will require Sellers to agree to the term.

**If you have any questions on contracting methods, sources sought, or how to post a buy, please contact your Account Manager.**
