HAH to present all-new NO CONTACT “Pay-by-Text” parking technology solution - Available nationwide November 3, 2020

CHARLESTON SC - October 19, 2020 HAH PARKING, Inc. the new leader in parking management software, has developed the most powerful parking platform in the world. It features lightning fast payment, proprietary artificial intelligence powered license plate recognition technology and a robust dashboard. HAH is built for the modern world.

Cashless / No Contact / Hardware-free

“We make it quick and easy for anyone to monetize, manage and enforce parking space,” said Rocky Vitali - Co-Founder / COO

Customers pay by text using HAH’s private label web application. No downloads or passwords to remember. Enforcers scan license plates to verify payment or instantly remediate citations. Managers access financial reporting, granular availability and set rate schedules for transient and monthly parking passes in real-time.

Product Reveal: Live Stream Presentation via YouTube October 23, 2020 3:30 - 5:30 pm EST
Contact Victor to request an invitation to the live event or schedule an interview.

HAH Parking Inc. is a nationally recognized parking technology company headquartered in Charleston, South Carolina. Stock holders include: Mr. Teddy Turner, Turner Foundation, Co-Chairman/Director, Atlanta GA and Mr. Edwin S. Taylor of Folly Beach, SC to name a few.
