

The Majestic Hotels Group’s newest offering opened in December 2020: the boutique M Suites, located in historic North Adelaide, only a few minutes from Adelaide City’s beating heart. With its striking sandstone façade, it seamlessly integrates into the heritage conservation zone in which it sits.

The South Australian family-owned and operated Majestic Hotels is synonymous with quality, and the M Suites is no exception. The carefully curated artworks scattered throughout reflect the beauty and diversity of what South Australia has to offer.

The M Suites sits within a beautiful Best Bricks & Pavers tiled terrazzo surround that perfectly complements its spectacular vertical garden, and gives the Hotel a spacious, luxe vibe.

Best’s Vecchia Scuola Black Series Terrazzo Tiles were used exclusively for the Hotel’s surround, outdoor and garden areas. Best’s Landscape & Services team worked with the project’s builders, Catcorp Group, to supply and lay the Terrazzo Tiles. Best’s end-to-end Supply and Lay service offers customers peace of mind that their pavers will be laid correctly, with high quality workmanship.

Terrazzo Tiles are a stunning feature for both indoor and outdoor areas. Best’s Terrazzo Tiles feature granite, marble and other coloured stones set into the tile’s surface which is then polished to reveal an exquisite finish. Best laid these Terrazzo Tiles using two installation methods: traditional dry lay

(bedding sand on rubble) around the hotel’s front and sides, and dry lay on bedding sand on a concrete slab at the rear. Access to the rear areas was via the Hotel interior, adding to the job’s complexities. Best ensured the floors and door tracks were protected by covering the entire floor with timber planks throughout the lay.

With the M Suites’ panoramic views, fittings of the highest quality and magnificently paved and planted outdoor relaxation spaces, this luxurious hidden sanctuary will surely become a must-stay for any visitor to Adelaide.
