

Features

Customers book appointments online:

- Thanks to our easy to integrated solution, your customers have access to your agenda directly from your website, Facebook page, Google My Business, and even your email signature.
- They check your availability and choose a slot for the appointment.
- You also have the possibility to add a payment request before the appointment validation.

Your agenda is filling up:

- Access your schedule from your computer, tablet and smartphone.
- View appointments booked by your team, services, rooms and equipment available.
- Your schedule can be synchronized with Google Calendar, Outlook, Office 365 or iCal.

Customers receive a reminder message:

- Stop no-show appointments!
- Your customers receive an email or text message reminding them the details of the appointment.

Win customer reviews:

- After each appointment, you have the option to send an email to your clients to collect their feedback.
- The review can be directly added to your Google My Business listing to increase your brand awareness and your web presence.

Your customer database is growing:

- All your contacts are stored in a CRM! Each one of your contacts has a customer record with the appointment history.
- By integrating GDPR consent directly, you have the ability to execute direct marketing actions with email campaigns.
