

Agent Website Search Settings

Agents can customize the search settings for their agent page under "Website > Default Search". Through this feature agents have options to switch from Gallery to Map view for the search results and also add in new limits.

Default Listing Search Settings Version 1.0

Default Search Settings

Using the form below, select the default State, County, Prices, and Search Types you want to use on your Agent Web Site. If you change the State we will clear-out any previously selected County. This is very useful if you market to a particular area or if your company spans multiple states and/or counties. If you change your default search criteria, you will see your new default search information the next time you visit your agent web site.

Default State

Use Site Default

i Once you have selected default state you will be able to select default County, Price Low, Price High, and Search Type

Default Results View Type

Gallery View

This applies only to the quick search autocomplete, and the user has never viewed a search result.

Update

Search Limits

This will limit your searches, such as "Gallery View", "Map View", "Quick Search" to those specified states and counties.

Default Search Settings

By default, all agent settings are set to use the search settings created at the admin level. By selecting a state and hitting "Update" you can customize default searching options such as the area or type.

Default Search Settings

Using the form below, select the default State, County, Prices, and Search Types you want to use on your Agent Web Site. If you change the State we will clear-out any previously selected County. This is very useful if you market to a particular area or if your company spans multiple states and/or counties. If you change your default search criteria, you will see your new default search information the next time you visit your agent web site.

Search Limits

Search limits are what defines what will appear for the search results on your website. If you have a listing in Texas but your search limit is defined down to Ohio then the Texas listing will not appear under your property search. Search limits can be by whole states or be broken down into certain counties. To add a new limit in fill out the "Add New Limit" section and click "Add New Limit".

Search Limits

This will limit your searches, such as "Gallery View", "Map View", "Quick Search" to these specified states and or counties.
