

Production Management

& Inventory Requirements Planning

- **Class Dates:** Tuesday, July 14 – Thursday, July 16
12:00pm – 4:30pm Eastern Daily
(3 – ½ day sessions)
- **Class Price:**
 - Resellers: \$595
 - End-Users: \$795
- Partners that want to be certified must also take the exam following the course and pass it with a 75% or higher score.
- **Class Description:**
 - Production Management is Sage 100's new manufacturing module that replaces Work Order. Inventory Requirements Planning replaces MRP. In this course we cover all aspects of both modules from installation, setup, and daily usage. Learn how to migrate a customer's data from Work Order and take advantage of the over 70 new features within Production Management that Work Order did not provide.
- **Class Details:**
 - The class is conducted via GoToWebinar. Once your registration is paid, you will receive a link for your personal access to the class.
 - A Training Manual is provided in PDF format for your use with the course.
 - A Sage 100 image is provided that includes the software needed to follow along and to interact with the software on your own workstation.
