Why work in Manufacturing?

- 1. Contribution To The Economy** - The manufacturing industry helps support the global and national economies, as well as individuals and families.
- 2. On The Cutting Edge** - Manufacturing has always been on the cutting edge of technology.
- 3. Exciting Sectors Of Work** - For some, relaying details about their jobs may be met with disinterest and boredom. With so much excitement within the industry, you'll have plenty of awesome information to share with those outside of it.
- 4. Fruits Of Your Labor** - One of the great benefits of working in this industry is the fact that you are often working on real, tangible products. Manufacturing affects almost everything in our lives.
- 5. Career Growth** - Once you choose a sector to go into, there are plenty of options for your career path. From fabrication and welding to research and distribution, the possibilities seem endless.

Why work at Parker Fasteners?

- **Company Profit Sharing BONUS program**
- **401K with employer match**
- **Paid Time Off**
- **Holiday Pay**
- **Employer Paid Health Insurance**
- **4 Day Work Weeks**
- **3 Day Weekends**
- **Essential Business**
- **Opportunity for Advancement**
 - **(9 Years Old and Growing)**
