

How to livestream from Zoom to Facebook to your BuzzIt event

If you're a Zoom user that's unfamiliar with livestreaming, you're halfway there. Follow this easy guide to become a pro streamer on Facebook.

Requirements

Facebook Requirements:

- If streaming from a Facebook page, you need to be an admin or editor of that page

Zoom Requirements:

- A Licensed Zoom account
- [Enable Custom Live Streaming](#)

facebook

1 Schedule a Facebook live video event

In one browser window, open your Facebook page, go to **Create** and click **Live**. Then create a **live video event**. Your Facebook event will carry your Zoom stream into BuzzIt.

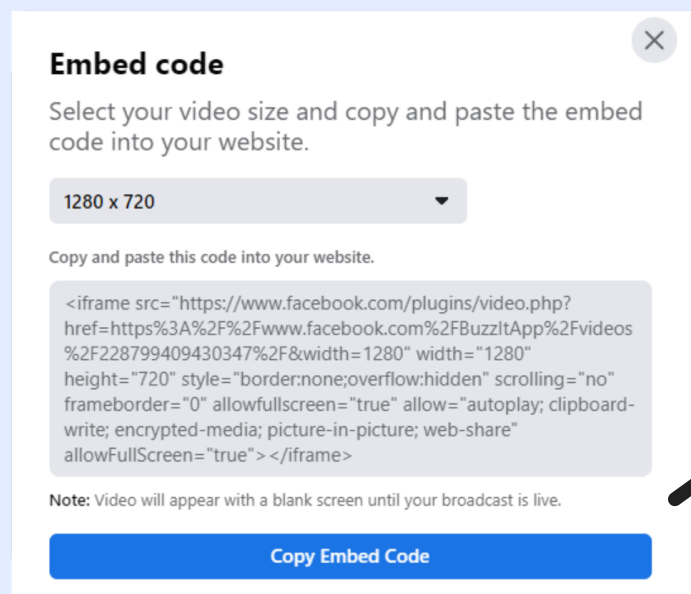

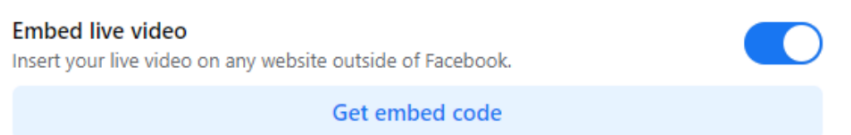

Go to **Set Up Live Video**. You'll need these 3 items from your scheduled live video event.

- Server URL
- Stream Key
- Event URL

3 Get your livestream embed code from Facebook

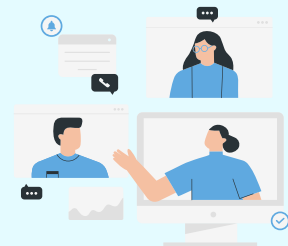

Go back to your Facebook window and go to **Stream settings**. Go to **Embed live video** and click **Get embed code**.

Click **Copy Embed Code**.

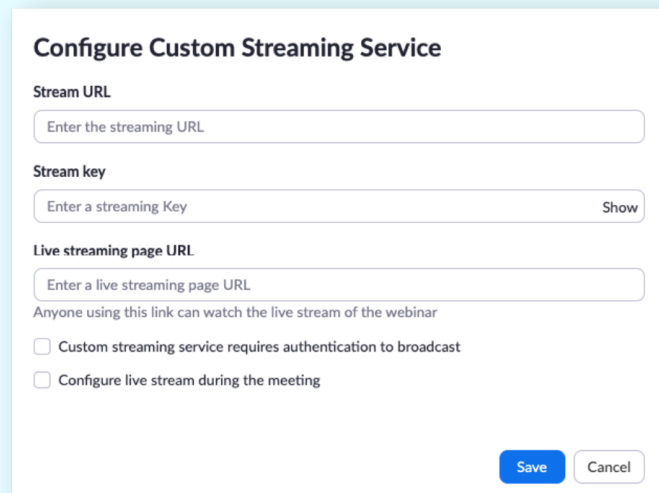

zoom

2 Create a scheduled Zoom Meeting

In a second browser window, **open your Zoom Dashboard and schedule a meeting** for your event date.

Once you've created the meeting, **copy in the 3 items from Facebook** to the Zoom meeting's **Configure Custom Streaming Service** window (found at the bottom of the page).

Note: Facebook uses different terminology. Here are Facebook's terms and their equivalent in Zoom:

Facebook	Zoom
Server URL	Stream URL
Stream key	Stream key
Event URL	Live streaming page URL

BuzzIt

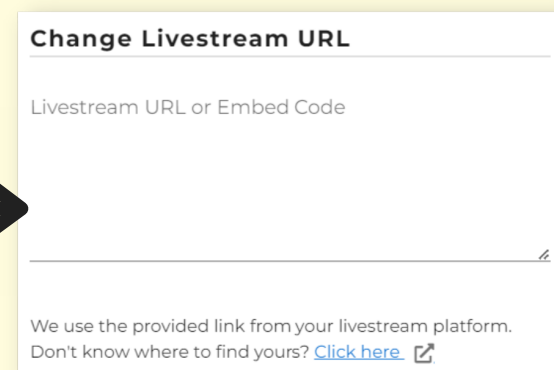

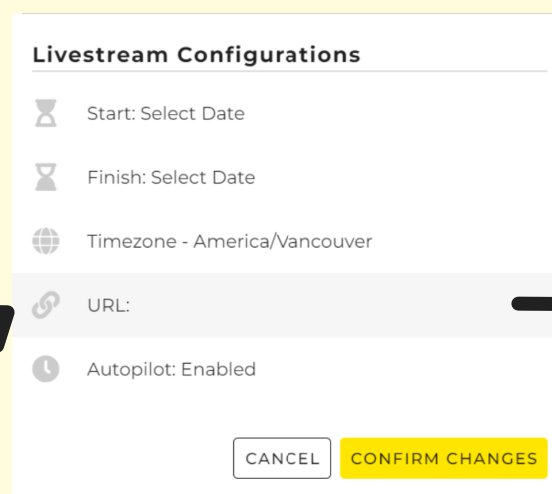

4 Copy the livestream embed link into BuzzIt

Go to your BuzzIt event home page and click the blue button in the bottom right. Turn on the **Livestream** feature.

Now click the blue **Livestream Config** button and **paste in your embed code** in the URL setting. Now your attendees will be able to **watch the livestream on BuzzIt**.
