# Getting Started

## How To Play

Fill in the missing words to these holiday-inspired stories with the help of a family member or friend. One person asks the other for specific type of words (e.g. verb, noun), filling in each blank space in the story. Once complete, read each story back for some good family fun (and maybe a few laughs too)!

**NOTE:** Be sure not to read the story while asking your partner for each word. The more random the answers, the better the story!

## Word Types

**Noun** - This is a person, place, or thing. Examples include school or skis.

**Verb** - This describes an action such as skiing, jumping or running.

**Adverb** - This describes a verb and commonly ends in 'ly' such as *quickly* or *loudly*.

**Adjective** - This describes a noun. Examples include *long* skis or *colorful* scarf.

**NOTE:** Other words may appear throughout the stories such as *drink*, *type of food*, and *emotion*.
