TEN COMMON MISCONCEPTIONS ABOUT OUR BUSINESS

FIDINAM (GENÈVE) SA

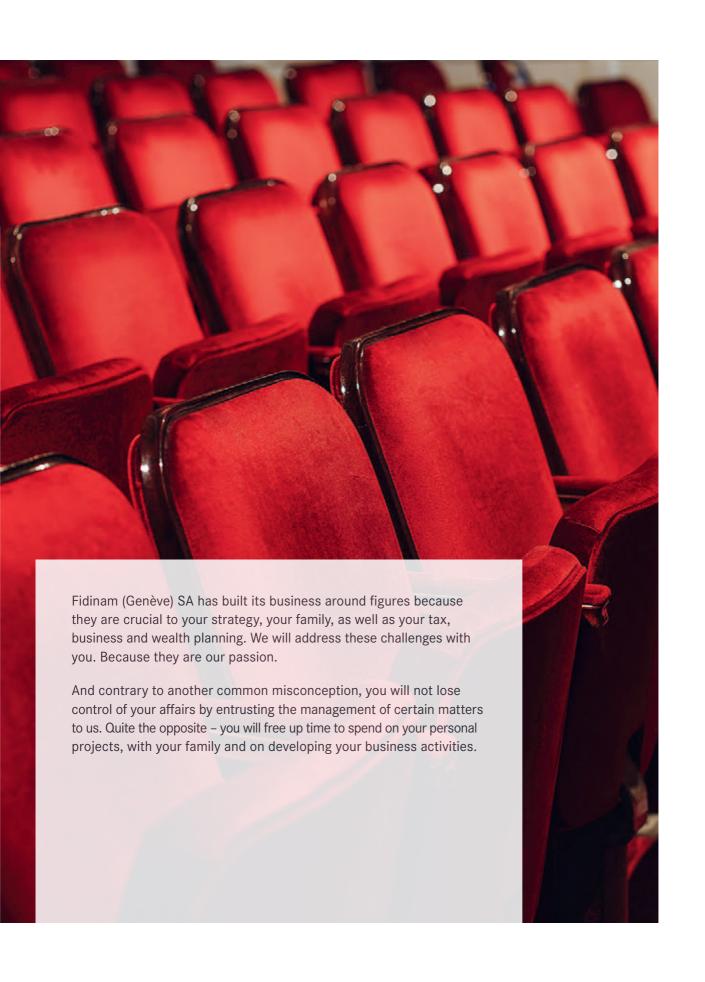

FIDINAM (GENÈVE) SA

COMMON MISCONCEPTION N°1

In our everyday conversations, it is quite frequent to hear common misconceptions such as "no-one likes figures".

But whether we like them or not, figures play an important role in both our personal and professional lives.

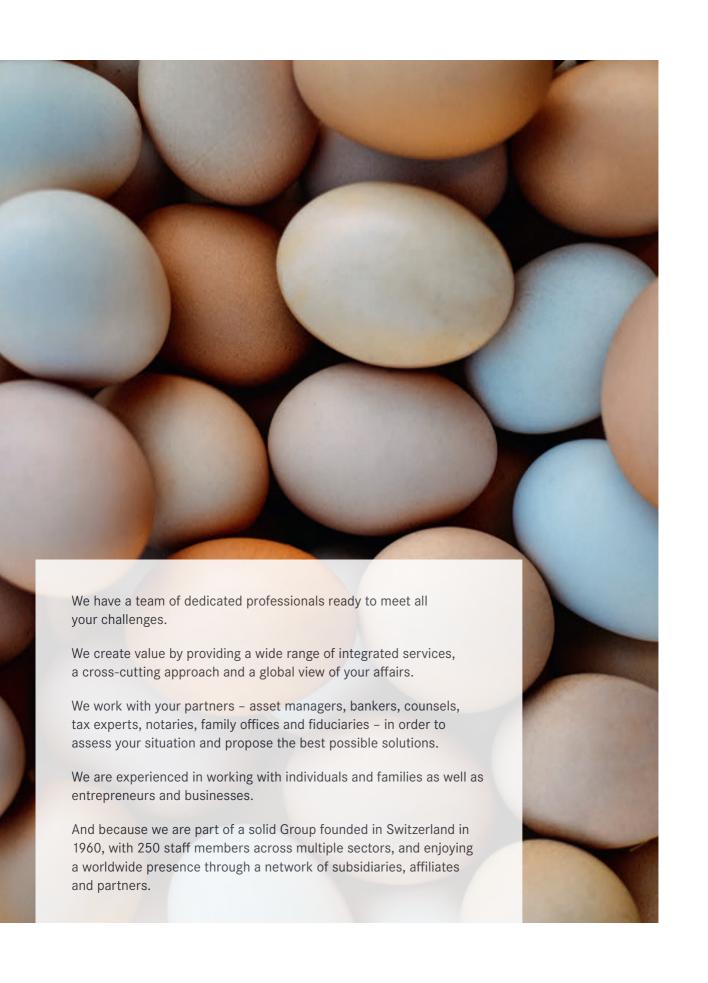

CONSULTANCY

CONSULTANCY

COMMON MISCONCEPTION N°2

Like any expert in taxation, accountancy, corporate management and wealth planning, Fidinam (Genève) SA could at first glance appear similar to any other consultancy firm. But we are different.

ACCOUNTING

ONLY LARGE COMPANIES REQUIRE THE SUPPORT OF AN ACCOUNTING FIRM

Completely wrong

ACCOUNTING

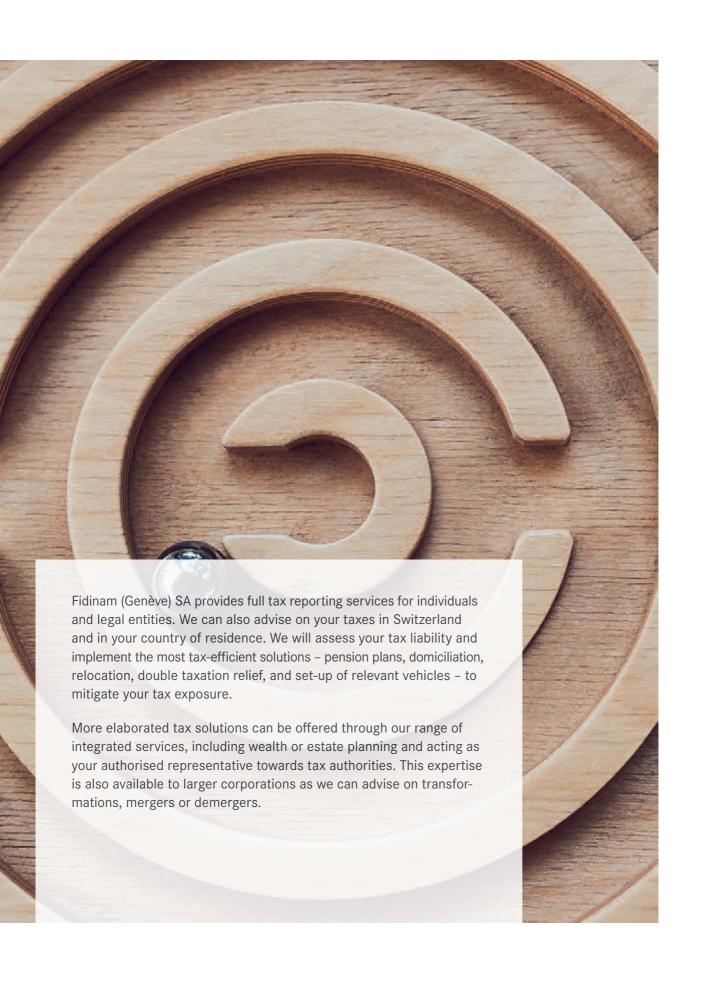

COMMON MISCONCEPTION N°3

Outsourcing your accounting will often benefit your business activity whether you are a freelance worker, a third-party manager, a start-up, a service provider or a licenced professional. New and small businesses need experts to help them adopting good habits from the start and to provide day-to-day follow-up and strategic advice.

They can be quite easy to complete for an employee. But if you hold assets in a company, if you invest in real estate, if you own a business or do business abroad, expert knowledge is required.

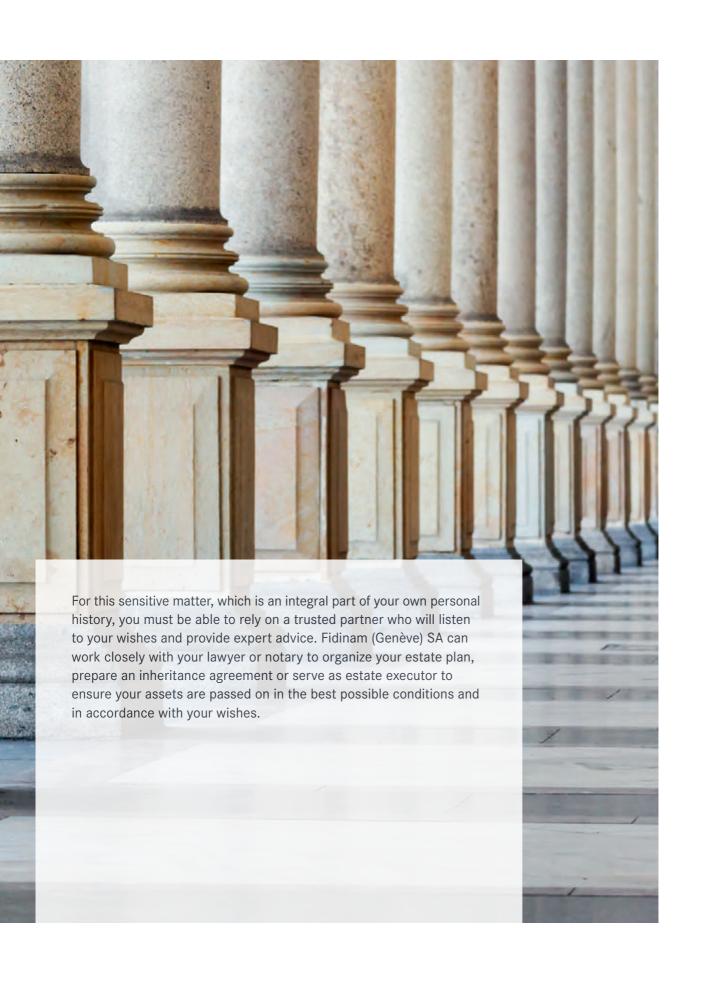

INHERITANCE LAW MEANS THERE IS NO NEED FOR ESTATE PLANNING

Absolutely

However, if you rely solely on the law provisions – be it Swiss or foreign law – you will not be able to plan the distribution of your estate. You may even penalise your heirs. This is particularly true if you have a large estate, including private equity, real estate, or assets located in multiple jurisdictions.

FIDINAM (GENÈVE) SA

Fidinam (Genève) SA has been providing fiduciary services, legal, wealth, tax advice to Swiss and international clients including individuals, entrepreneurs, service providers, lawyers, banks and independent asset managers in Geneva since 1972.

The 20 staff members share the company's core values of dynamism, specialisation and confidence. They use their expertise to execute accounting and tax mandates, and are also at

ease to handle more complex matters such as creation and management of vehicles, wealth structuring, financing, transfer, patent and brand management and family office services.

Fidinam (Genève) SA relies on a large network of experts and partners, thanks to its parent group, Fidinam Group, founded in 1960 in Lugano (Switzerland) and having since then expanded its activities around the world.

OUR VALUES

DYNAMISM

We have a strong entrepreneurial creativity and capacity to adapt to the ongoing changes in the markets where we operate.

SPECIALISATION

We continually improve our skills in order to respond to the evolvement of our clients' business environment and related regulatory changes with the adequate expertise and professionalism.

CONFIDENCE

We offer tailored solutions, flexibility, full discretion and we draw inspiration from our clients.

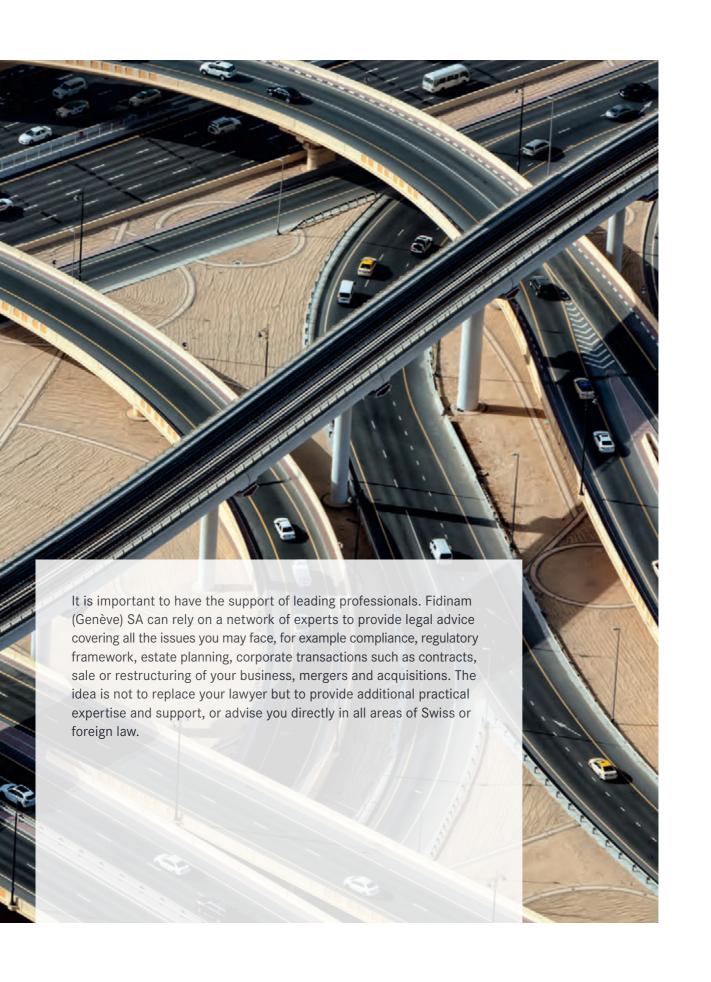

RULES AND REGULATIONS CHANGE ALL THE TIME

That's right

Recent years have seen many changes in tax rules, banking regulations, accounting standards, inheritance law, business and company law. The area of change is so vast that one individual cannot possibly master the diversity of all legal topics.

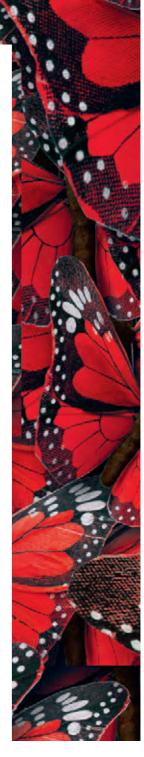

BUSINESS SERVICES

ALL BUSINESSES EXPAND THEN CONTRACT

Yes, in some cases

BUSINESS SERVICES

COMMON MISCONCEPTION N°7

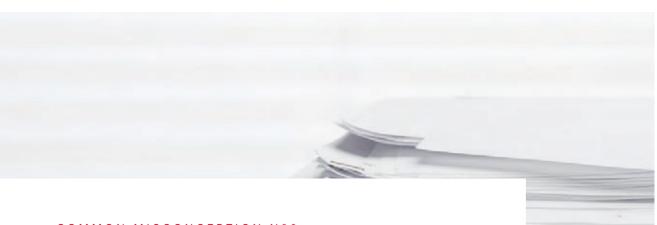

The art of managing a business lies in the knowledge of mastering the change, the transformation, and the ability to evolve.

The main pillars of this art are the leadership and the overarching vision, complemented by a suited organisational and financial architecture.

PAYROLL MANAGEMENT

OUTSOURCING PAYROLL SERVICES IS EXPENSIVE

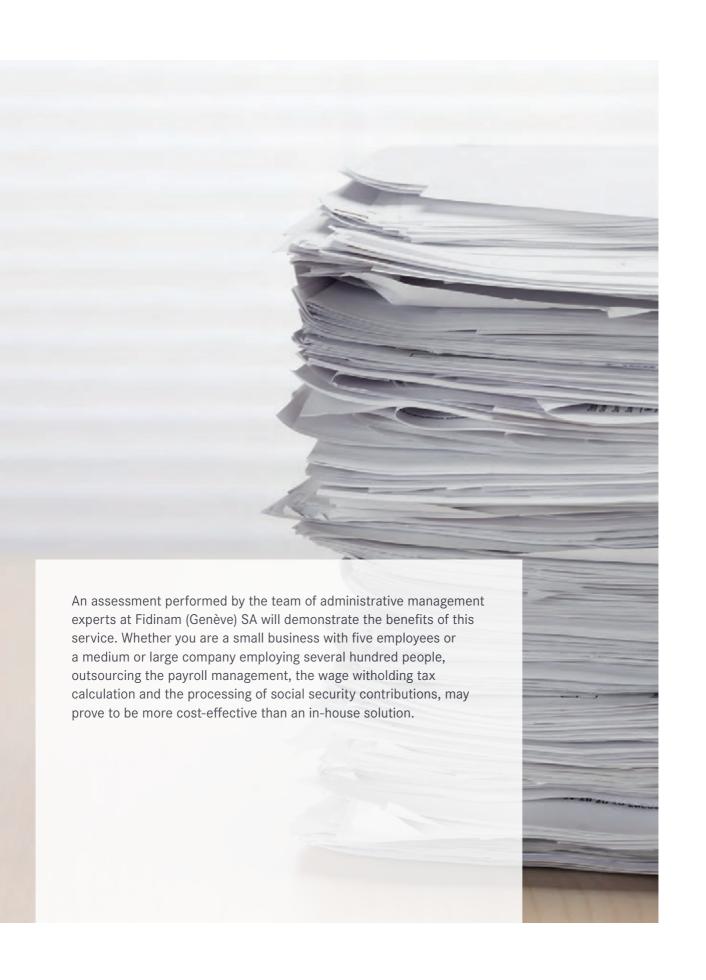

Not necessarily

PAYROLL MANAGEMENT

COMMON MISCONCEPTION N°8

There are two main advantages in outsourcing the administrative management of your human resources. First, you will improve your company's operational efficiency and secondly, you will lower your costs. This is particularly true when managing complex situations such as the calculation of variable bonuses and compensations, profit-sharing and dealing with cross-border issues.

WEALTH
PLANNING IS
ONLY FOR
ULTRA-HIGH
NET WORTH

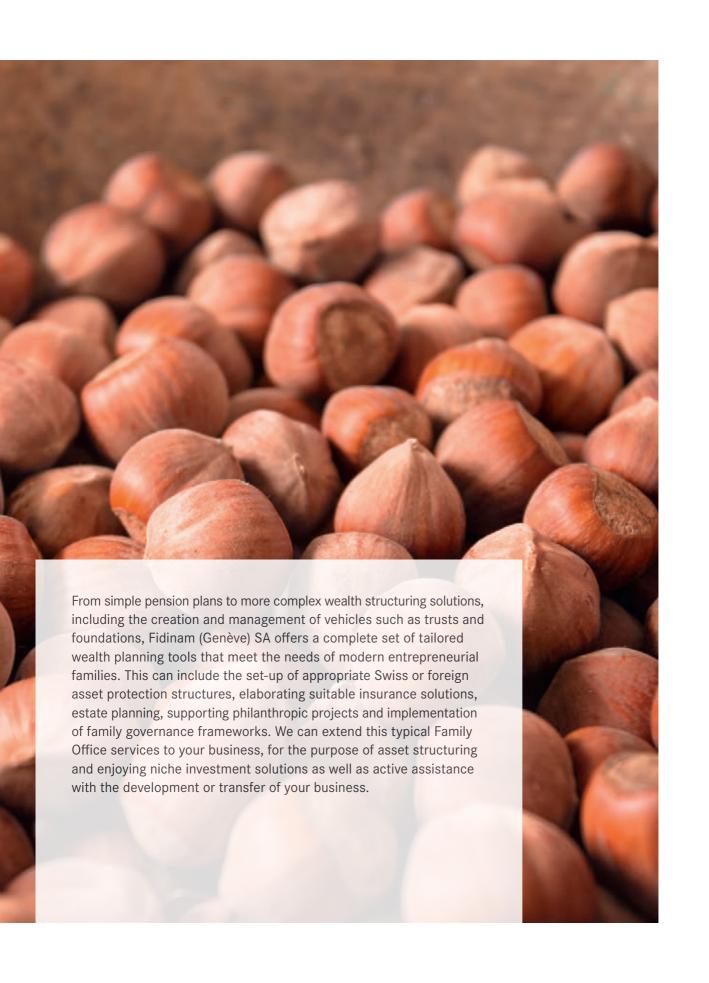

INDIVIDUALS

Untrue

WEALTH PLANNING

COMMON MISCONCEPTION N°9

It is in everyone's interest to protect their assets, regardless of size, to build up their estate and to plan for the future. Especially when you have a family to look after or if you own one or more businesses.

COMMON MISCONCEPTION N°10

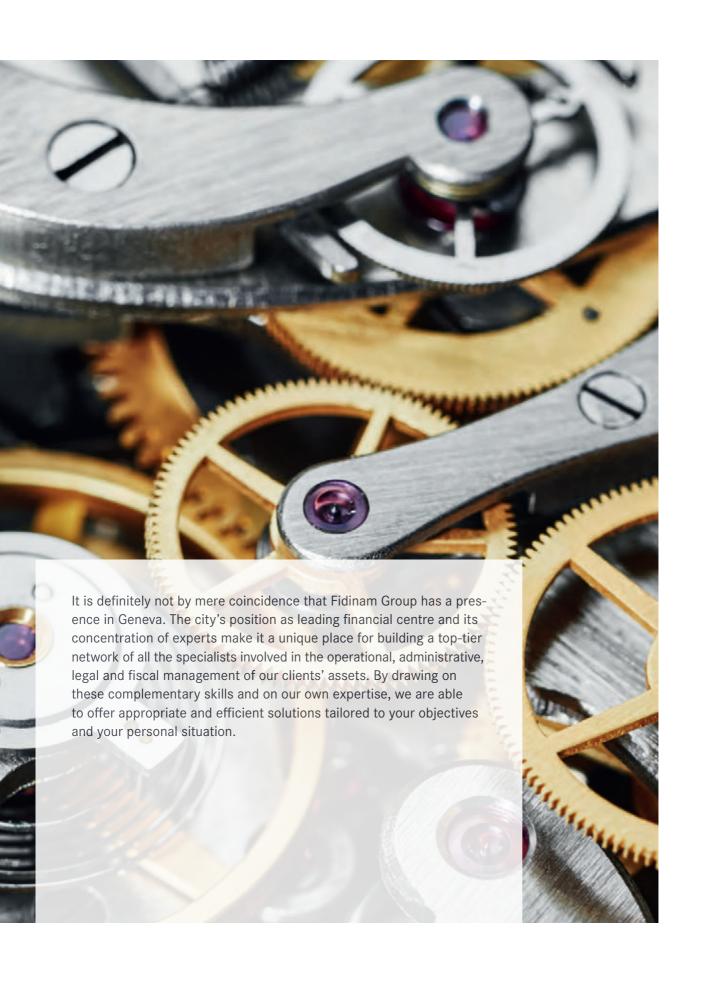

GENEVA IS THE CAPITAL OF SWITZERLAND

Wrong

COMMON MISCONCEPTION N°10

Bern is Switzerland's capital. However, people who know little about our country will often swear that it's Geneva. This is because Geneva is well known around the world due to the major role it plays in international governance and global economy. It also plays an unrivalled role in international finance and wealth management.

Fidinam Group A global presence
