WHY CHOOSE AM CONSERVATION GROUP?

Achieve Your Goals with Us

AM Conservation Group is your trusted resource for energy- and water-efficient products. From smart thermostats to LED light bulbs, showerheads, faucet aerators and advanced powerstrips, our products leverage innovative technology to maximize savings. We guarantee quality with product certifications from ENERGY STAR®, DLC and WaterSense®.

As a manufacturer and distributor with over 30 years of merchandising, online product sales, program implementation and logistics experience in the energy and water efficiency industry, we are uniquely qualified to provide reliable products and services.

30+

Experience

We have been in business for more than 30 years, which means we've got the experience and market expertise to achieve your unique goals.

Fast & Safe Delivery

Our industry-leading logistics network follows extensive best practices, including maintaining ample inventory on-hand, to fulfill orders in a seamless and timely manner.

Reliable Pricing

Our manufacturer-direct product pricing builds value for your business and your customers.

Top-Level Support

We provide concierge-level customer service with after-sale support.

Efficient Products

We offer products that are custom-engineered and hand-picked to provide superior performance at an accessible price point.

PREMIUM PRODUCTS & SERVICES

AM Conservation Group's robust product line is ideal for a variety of clients, including utilities, municipalities, program implementers, contractors, distributors, retailers, non-profit agencies and more.

For product installation videos, visit
AM Conservation Group's YouTube Channel

Rapid & Reliable Fulfillment

We ship directly from our warehouse to your job site or store within 1-2 days of receipt of order.

Unparalleled Value

Our unique, competitively priced product mix builds value for your business and your customers.

Discount Opportunities

We offer the ability to order in bulk, saving time and providing cost savings to both you and your customers.

HIGH-QUALITY LIGHTING

Lighting For Home, Office and Commerical Buildings

AM Conservation Group offers a wide range of energy-saving lighting options for residential, small business, and commercial and industrial businesses for bulk order.

RESIDENTIAL LIGHTING

SIMPLYCONSERVE™

Simply Conserve® Dimmable A19 LED Lamp

Our dimmable A19 LED lamp for enclosed fixtures is equipped with a 220° beam angle that produces even light from the socket base in a wide direction and can be used in enclosed fixtures. This lamp has a standard medium base, which allows it to be easily installed into existing standard-sized lamps and fixtures.

SIMPLYCONSERVE™

Simply Conserve® 3-Way A19 LED Lamp

With the flip of a switch, this bulb delivers full light—instantly. Plus, the LEDs aren't visible inside, which makes this bulb the perfect choice for open fixtures. Superior to fluorescent and incandescent options, this LED sends even light in every direction, saves money on energy bills and, with average use, lasts at least a decade. 25,000-hour life. ENERGY STAR® certified for quality.

SIMPLY CONSERVE™

Simply Conserve® LED Night Light   CUSTOMIZABLE

With its sleek, classic design that delivers serious savings, these LED night lights are engineered for maximum longevity with minimal energy usage. Each night light intelligently turns itself on and off, depending on the amount of light in the room—plug it in once, and your job is done. Because these night lights perfectly disperse light to illuminate your path, you and your family can avoid safety hazards after dusk.

SIMPLY CONSERVE™

Simply Conserve® Battery Backup with Hook   CUSTOMIZABLE

A power outage shouldn't mean complete darkness. That's why the Simply Conserve® Battery Backup Lamp functions like a normal light bulb – until it's needed most. When the power goes out, the bulb stays on by operating in back-up battery mode. It charges when the light is on, so it's always ready to shine. Fully portable and rechargeable, the Battery Backup Lamp is ideal for home, office and commercial uses. Its damp-rated functionality also makes it a popular choice for outdoor usage in gardens, camping trips and more.

COMMERCIAL LIGHTING

SIMPLYCONSERVE™

Simply Conserve® LED Recessed Downlight Retrofit

These recessed downlights are the ideal solution for energy-efficient lighting upgrades in new construction or remodeling projects. They seamlessly replace 65-to-75watt incandescent lamps in five- and six-inch recessed downlight fixtures, saving money without sacrificing quality. They're easy to install, suitable for use in damp locations and provide 35,000 hours of maintenance-free operation.

SIMPLYCONSERVE™

Simply Conserve® J-Box Integrated Downlight

Simply Conserve's IC-Rated LED Integrated Downlight is available in 6" diameter. It can be easily installed in finished drywall or architectural tile ceilings in a wide variety of commercial and residential applications. The downlights provide more than 78 lumens per watt with a high 80+ CRI for efficient performance and excellent color rendering. The LED fixtures are IC-rated for use in insulated ceilings and meet IECC air leakage requirements. The UL Wet Location listing makes the product a versatile solution for use in areas where water intrusion is likely. These fixtures are designed for easy installation and feature a baffled trim to provide a proper cut-off angle. The Simply Conserve IC-Rated LED Recessed Downlight Series accepts 120-volt AC power supply.

SIMPLYCONSERVE™

Simply Conserve® LED T8 – UL Type A – Direct Replacement

This LED T8 lamp is a perfect plug-and-play solution to convert existing fluorescent fixtures to LED. Designed to deliver 1800 lumens, these lamps produce the same light output as a 32W fluorescent with less than half the power. The glass construction provides a strong, quick, and safe installation without any re-wiring of the ballast or fixture. Compatible with most electronic instant-start and programmed rapid start T8 ballasts.

SIMPLYCONSERVE™

Simply Conserve® LED T8 – UL Type B – Double-End Ballast Bypass

T8 LEDs provide cost-effective, powerful, uniform lighting for T8 fluorescent retrofit projects utilizing standard G13 (medium bi-pin) sockets. They are used in conjunction with the existing fluorescent housing or fixture bodies. These T8 lamps are equipped with a dedicated internal driver to deliver appropriate light levels for your application. These commercial LED lighting products are great for offices, retail spaces, schools, universities, airport lounges, government facilities and many other common indoor applications.

SIMPLYCONSERVE™

Simply Conserve® LED T8 – UL Type B – Single-End Ballast Bypass

Simply Conserve® LED T8 lamps are a perfect solution when upgrading traditional linear T8 or T12 fluorescent fixtures to energy-saving, LED technology. These lamps are designed to deliver 1900 lumens using half the power of a traditional 32W fluorescent. The singled-end design is ideal for applications using non-shunted tombstones and operates with 100-277v AC power. The durable aluminum and polycarbonate construction makes this an ideal solution for use in most commercial environments.

SIMPLYCONSERVE™
Simply Conserve® LED Wall Pack

The energy-efficient 50- and 75-watt LED Wall Packs are ideal for brightly-lit outdoor environments in parking garages, entrances, public areas, schools, hospitals and hotels. As replacements for 200W metal halide (75W) and 150W metal halide (50W) fixtures, these wall packs are eligible for incentives with many utility programs, save energy, reduce maintenance costs and prevent light pollution.

SIMPLYCONSERVE™
Simply Conserve® Wall Pack Photocell Switch

The Wall Pack Photocell Switch automatically adjusts lighting based on sunlight exposure. Effortlessly and reliably control street lighting, passage lighting, doorway lighting and more without lifting a finger. With a wide voltage range, the switch is broadly applicable for almost any power supply level. The 3-10-second time delay prevents unnecessary lighting adjustment affected by rapidly changing conditions. Eliminate waste by only operating your wall packs when necessary with our UL-listed Wall Pack Photocell Switch.

ENERGY PRODUCTS

Monitor and Use Energy Responsibly

AM Conservation Group offers an array of energy-saving devices that range from simple thermometers to advanced power strips and programmable thermostats. We also offer custom printing on many of these products to match your branding.

THERMOSTATS

ecobee SmartThermostat

The ecobee SmartThermostat allows homeowners to easily adjust temperature, check the weather, control smart home devices and more. It features room sensors to manage unevenly heated portions of the home. With built-in Amazon Alexa voice services, users can control the thermostat without lifting a finger. They can also control it from anywhere in the world with any iOS or Android device.

MODEL NUMBER	CASE QTY.	WARRANTY
EB-STATE5-01-SN-1	10	3 year

ecobee3 Lite Thermostat

This smart ecobee3 Lite thermostat provides effortless control at your fingertips, allowing you to adjust temperature and comfort settings easily from your Android and iOS devices, including Apple Watch. The ecobee3 Lite thermostat uses local weather and your system to take the least amount of time to cool or heat your home. It features room sensors that help manage hot and cold spots of your home. The ecobee3 lite delivers unparalleled value, control and comfort.

Google Nest Learning Thermostat

The Google Nest Learning Thermostat learns what temperature you like and builds a schedule around yours. The Nest thermostat can use sensors and your phone's location to check if you've left, then sets itself to an Eco Temperature to save energy. Change the temperature to save energy and you'll be rewarded with a Leaf. The Leaf learns how to help you save, so it appears at different temperatures for different families.

EFFICIENT POWER STRIPS

SIMPLYCONSERVE™

Simply Conserve® 7-Outlet Advanced Power Strip   **CUSTOMIZABLE** ✎

The Simply Conserve® Advanced Power Strip (APS) allows users to eliminate excess energy usage and trim utility bills by intelligently cutting off power to connected devices while they're not in use, eliminating phantom and standby power losses without ever unplugging the equipment. Load-sensing technology detects the current being drawn through the Master Outlet, which is plugged into a primary device like your TV or computer. Then, peripheral devices like game consoles, DVD players or monitors are plugged into the Switched Outlets, which only become energized when a high current is detected in the Master Outlet, indicating the TV or computer is powered on. Always-On Outlets provide power at all times, so they can be used for devices that need power constantly, like modems and cable boxes.

MODEL NUMBER	CASE QTY.	WARRANTY
SC73T1	18	Lifetime

TrickleStar

TrickleStar Advanced PowerStrip with Adjustable Switching Threshold

CUSTOMIZABLE ✎

The seven-outlet Advanced PowerStrip (APS) with adjustable switching threshold provides premium-quality surge protection while reducing standby power consumed by computer or television electronics in either residential or commercial applications. It features current-sensing circuitry with an adjustable switching threshold to detect whether the control device (typically a TV or PC) is either on, off, or in a standby state. Through simple automation, the APS saves energy by automatically turning on or off the switched outlets based on the status of the control device (on, off, or in standby). The adjustable threshold switch allows the user to easily calibrate the APS to the power value of the control device, ensuring compatibility with all types of appropriately-connected products. Additional and premium features include fireproof surge protection, LED status indicator lights, child protection covers, and a heavy-duty power cord with an angled, space-saver plug. This Tier 1 APS product is listed to UL1363 and UL1449.

MODEL NUMBER	CASE QTY.	WARRANTY
APS010	18	10 year

TrickleStar

TrickleStar Advanced PowerStrip

The seven-outlet Advanced PowerStrip (APS) features one control outlet, two always on outlets, and four switched (energy-saving) outlets. The APS cuts power loss from electronics that consume energy while they are switched off or in standby mode by shutting off the supply power to peripheral devices (such as the DVD player or printer) plugged into the switched outlets when the control device (such as a TV or computer) is turned off or placed into standby mode. It features premium-quality, ceramic-encased fireproof surge protection (540 or 1,080 joules) to protect connected equipment from surge spikes. All outlets are clearly labeled, so setup is easy, and it can be installed in both residential and commercial workplace applications. This Tier 1 APS product is listed to UL1363 and UL1449.

MODEL NUMBER	CASE QTY.	WARRANTY
TS1501	20	10 year

TrickleStar AV Advanced PowerStrip+

The 7-outlet Audio Visual (AV) Advanced PowerStrip+ (APS+) provides premium-quality surge protection while reducing active and standby power wasted by home entertainment center electronics. A highly accurate multi-sensor detects infrared (IR) remote control activity and motion to determine whether the TV is being used; if no IR remote control activity or motion is detected within the countdown timer period, the AV APS+ powers down the TV and AV peripheral electronics plugged into the switched outlets. It ensures compatibility with all types of televisions, and it features premium-quality, ceramic-encased fireproof surge protection rated to 1,080 joules. This product is listed to UL1363 and UL1449.

MODEL NUMBER	CASE QTY.	WARRANTY
TS1810	18	10 year

TrickleStar AV Advanced PowerTap+ (Residential)

The Audio Visual (AV) Advanced PowerTap+ (APT+) is a 4-outlet wall tap that provides surge protection while reducing active and standby power wasted by home entertainment center electronics. The connected TAV-Link™ multi-sensor with a configurable countdown timer detects infrared (IR) remote control activity and motion to determine whether the TV and electronics are being used. Each time activity is detected, the countdown timer on the multi-sensor is reset; if no IR remote control activity or motion is detected within the countdown timer period, the AV APT+ powers down the TV and AV peripheral electronics plugged into the switched outlets. The APT+ supports high-level Consumer Electronic Control commands via the TAV-Link cable that connects from the multi-sensor to an HDMI port on the TV, allowing "smart" TVs to safely store their data and settings prior to powering down and gaming consoles to enter an energy-saving mode earlier and without any corruption of data. This product is listed to UL498A and UL1449, and it features ceramic-encased fireproof surge protection rated to 1,080 joules.

MODEL NUMBER	CASE QTY.	WARRANTY
TS1814	20	10 year

TrickleStar PC Advanced PowerStrip+ (Commercial)

The 7-outlet PC Advanced PowerStrip+ (PC APS+) is a commercial Tier 2 APS solution that provides surge protection while reducing active and standby power wasted by computers and workstation peripheral electronics. It features an accurate motion sensor with a configurable countdown timer that connects to the computer via USB. Each time the sensor detects movement in the workspace area, the countdown timer is reset. If no movement is detected in the workspace area during the countdown timer period, a sleep command is sent to the computer, putting the computer and monitor into sleep mode, and power supplied to the PC peripheral electronics (e.g., printer, task lamp, speakers, etc.) plugged into the switched outlets is removed. This product is compatible with Mac® and PC (Linux®/Windows®) operating systems, is listed to UL1363 and UL1449, and features ceramic-encased fireproof surge protection rated to 1,080 joules.

MODEL NUMBER	CASE QTY.	WARRANTY
LTS-6PS	12	5 year

TrickleStar

TrickleStar Energy Monitor

Measuring and understanding energy consumption is the first step toward finding ways to save energy. TrickleStar's Plug-in Energy Monitor helps users understand the energy impact of certain household appliances, which can help reduce energy usage and lead to the adoption of energy-saving behaviors. The Energy Monitor instantly displays valuable information about the electronics being measured, including the amount of energy used, the amount of carbon dioxide (CO_2) produced in generating electricity, and the cost of operation. It also forecasts the amount of energy and cost in daily/monthly/ yearly estimates. This product is UL Listed and provides 360 joules of surge protection.

| MODEL NUMBER	CASE QTY.	WARRANTY
TS2003	20	10 year

TrickleStar

TrickleStar USB Motion Sensor

TrickleStar's USB Motion Sensor with a configurable countdown timer saves energy by sending a sleep command to home office or commercial workspace computers if no motion is detected. It is a simple plug-and-play power management solution that requires no software or additional programming. The USB Motion Sensor features a highly accurate, configurable sensor that detects motion for a period of time (10/15/20/25/30 minutes). When a person moves in the sensing area, for example typing on the keyboard, the sensor detects movement and the countdown timer is reset, keeping the computer in its active state. If no motion is detected during the set time period, a sleep command is sent to the computer putting it into sleep mode.

WEATHERIZATION & HOME EFFICIENCY

Professional-Grade, High-Quality Materials

AM Conservation Group sources weatherization products for contractors with ease, speed and flexibility. Our weatherization products are competitively priced and we maintain appropriate inventory levels of various hard-to-find, specialty products.

WEATHERSTRIPPING

SIMPLYCONSERVE™

Simply Conserve® Windjammer-Style Weatherstripping

Our Windjammer Foam Weatherstripping retains its original shape year after year, remains pliable from -40°F and meets ASTM, BSI, DIN and ISO standards. The Windjammer is an easy-to-cut cellular polyvinyl chloride (PVC), which has become widely accepted as a substitute for wood due to its superior performance characteristics. It resists water, rot, warping, and splintering, meaning it lasts longer than wood and results in less waste. The tops are precut for a uniform fit, efficient installation and superior air-sealing. The Windjammer comes ready to install and can be painted. It has a nail-up installation so no screws are necessary (nails are not included).

SIMPLYCONSERVE™

Simply Conserve® Closed-Cell Polyethylene Hot Water Pipe Insulation

Our Closed-Cell Polyethylene Hot Water Pipe Insulation is used to insulate residential and commercial hot water non-steam pipes, providing improved thermal efficiency and protecting personnel from heat and burns. Insulating hot water pipes reduces heat loss and can raise water temperature 2°F – 4°F. It also prevents freezing and sweating for cold water pipes. Our pipe insulation provides excellent resistance to water and water vapor and has a temperature range of -160°F to 200°F. The insulation is flexible and is 100% pre-slit for easy installation.

MODEL NUMBER	R VALUE	DIMENSIONS	CASE QTY.

SIMPLYCONSERVE™

Simply Conserve® Heat Shrink Film Window Insulation Kit

Our easy-to-use Heat Shrink Film Window Insulation Kit contains plastic shrink film and two-way tape to insulate and weatherize average-size windows. The insulation kit seals windows airtight and eliminates condensation, cold drafts and heat loss. The tape securely holds the plastic film in place while a hair dryer shrinks plastic film to form smooth, tight, clear-as-glass coverage inside the storm window.

MODEL NUMBER	PACKAGING	DESCRIPTION	DIMENSIONS	CASE QTY.

SIMPLYC✺NSERVE™
Simply Conserve® Chill-Stopper Air Conditioner Covers

Our Chill Stopper Air Conditioner Covers are rigid air covers that are designed to insulate through-the-wall air conditioners. The Chill Stopper Air Conditioner Covers seal out 100% of drafts, have a high R-value and also eliminate condensation. They attach easily from the inside without the need for duct tape, caulking or mess. These air conditioner covers fit most major brands of air conditioners and come with all necessary hardware. When choosing a size for your Chill Stopper Air Conditioner Cover, it is important that you add 1" to the dimensions of the air conditioner unit after measuring to give you accurate measurements. The Chill Stopper Air Conditioner Covers are made to order. Additional sizes are available.

Basement Window/Wall & Pipe Patch Insulation

Basement Window/Wall and Pipe Patch Insulation is a pliable, adhesive-backed, polyethylene insulation that can be used to insulate basement windows. This insulation seals out cold air and helps maintain the proper temperature in the basement and the floors above. Just cut to size, peel and stick to a clean and dry surface. This insulation can also be used to patch holes in walls, around foundations, under cabinets, around pipes or wherever they exist. Just cut the foam to size, peel and stick to patch holes and eliminate drafts.

CAULKS, SEALANTS & TAPES

Tower Sealants' Acrylic Caulk Sealant

Tower Sealants' Acrylic Caulk Sealant provides an inconspicuous way to save energy by sealing areas that cause air leaks. It has an acrylic adhesive sealant ideal for use in sealing interior and exterior windows and doors. This product forms a flexible, durable, airtight and water-resistant seal that offers exceptional quality for protection from environmental conditions. It applies white or clear and can be easily cleaned with soap and water. It also may be painted when cured.

MODEL NUMBER	COLOR	SIZE	CASE QTY.
TS-00300	Clear	10.1 oz	12
TS-00048	White	10.1 oz	12

DAP® Acrylic Latex Caulk Plus Silicone Sealant

DAP's superior-quality caulk with acrylic latex and silicone resists moisture and mildew. It can be used for both interior and exterior applications. It's highly flexible and durable and provides a waterproof seal that prevents air and moisture from passing through cracks and joints. It can be painted and cleans up easily with water.

MODEL NUMBER	COLOR	SIZE	CASE QTY.
18156	Clear	10.1 oz	12

American Sealants' Weatherization Silicone Sealant

American Sealants' 50-Year Weatherization Sealant is an energy-efficient sealant that remains permanently flexible. It is waterproof and will not shrink or crack. It can be applied in temperatures of -30 to 140°. The sealant is ideal for window or door seals and can also seal window sills, baseboards and other gaps and openings where a long-lasting professional-grade sealant is needed. It can be used for both interior and exterior applications and resists UV, sleet, snow and ozone.

MODEL NUMBER	COLOR	SIZE	CASE QTY.
SC010C	Clear	10.2 oz	12

American Sealants' Premium Weatherization Silicone Sealant

American Sealants' premium high-temperature silicone designed to perform in applications with continuous temperatures up to 500°F and intermittent temperatures up to 600°F. It is a fast-cure, high-strength and weather-resistant sealant that forms a red 100% silicone rubber sealant when cured. It is the highest quality silicone for bonding, sealing and assembling for high temperatures applications such as engine gaskets, power units, motors, pumps, smoke and ventilation ducts, chimneys, HVAC units and kitchen appliances. It also meets the requirements of FDA Regulation No. 21 CFR 177.2600 for food grade applications. It will adhere to most common building materials.

MODEL NUMBER	COLOR	SIZE	CASE QTY.
600HT-C24	Red	10.2 oz	24

DAP® Insulating Foam Sealant

DAP's Insulating Foam Sealant fills, seals and insulates cracks, gaps and voids around windows, doors, pipes, vents, outlets, foundations and crawl spaces. This sealant keeps heat in and keeps drafts, moisture and pests out. The easy-to-use latex foam won't over-expand and cleans up easily with water. It includes a non-clogging applicator and has no solvent odors. It works for both indoor and outdoor applications and is UL approved.

MODEL NUMBER	COLOR	SIZE	CASE QTY.
18836	White	12 oz	12

Simply Conserve® Rope Caulk

Our Rope Caulk is an effective alternative to tube caulking for both doors and windows. Unlike tube caulking, there is no caulk gun needed or messy clean up. Simply separate a strand of rope caulk and press the self-stick caulk into place. This caulk helps seal out drafts in small gaps, providing an easy caulking solution that will not harden or dry out.

CADS Fiber-Reinforced Duct Mastic

Our CADS (Contractor-Approved Duct Sealant) Fiber Reinforced Duct Mastic is our most economical water-based duct mastic. CADS is fiber-reinforced and rated for high-velocity HVAC systems and has excellent mold and mildew resistance. CADS may be used to seal all types of HVAC duct systems, including metal, fiberglass, duct board and flex duct. It can be used for both indoor and outdoor applications and is preferred by residential and commercial duct sealing professionals alike.

MODEL NUMBER	COLOR	SIZE	CASE QTY.
CADS-1	Gray	1 gallon	4

2" Mastic Brush

Our 2" Mastic Brush is manufactured with natural bristles and a wooden handle, which makes it ideal for applying mastic and adhesives to all types of substrates. It is reusable and can be cleaned repeatedly or disposed of when the job is finished. This brush is also ideal for cleaning coils and for dusting off parts, equipment and ductwork. It can be used with solvent-type parts cleaners.

SB-2-CS	24

Aluminum Foil Tape

Our Aluminum Foil Tape is a special 1.5 mil (38 μ) high-strength aluminum foil tape with a higher tack, and a special cold weather acrylic adhesive system. The unique tape formulation combines extremely high stick at normal temperatures with superior performance at low temperatures and high humidity. The thinner material allows for superior conformability in vapor sealing of fiberglass duct board and FSK systems. The foil tape adheres easily to fibrous and sheet metal ducts and conforms to irregular surfaces. It can also be torn by hand and is easy to install.

MODEL NUMBER	DIMENSIONS	CASE QTY.
1521CW-CS-50YDS	2" x 150'	24
1521CW1.5-CS	3" x 150'	16

Aluminum Foil-Coated Duct Tape

Our Aluminum Foil Coated Duct Tape is coated with an acrylic pressure-sensitive adhesive and applies easily to both fibrous and sheet metal ducts on flat and irregular surfaces. This tape excels in demanding temperature applications and other environments. It is UL listed and meets requirements of UL181A-P and UL181B-FX.

| MODEL NUMBER	DIMENSIONS	CASE QTY.
1581A-3-CS	3" x 180'	16

Embossed Vinyl Tape

Our Embossed Vinyl Tape is a premium vinyl tape with an aggressive acrylic adhesive. It is primarily used for seaming water heater insulation and completing a water heater blanket installation. This tape can also be used for installing vinyl-faced fiberglass insulation in metal building applications. This tape is thin, strong, conformable and shrink- and plasticizer-resistant with a pressure-sensitive release liner. It applies easily and excels in demanding temperature and humidity applications, providing superior performance and durability over a wide range of conditions.

Niagara Conservation Earth® Pause

Our Earth® Showerheads with Soap & Soak® Valve save money by using up to 75% less water than traditional "low-flow" showerheads on the market. While the Earth® Showerhead ensures drastic water usage reductions, the patented pressure-compensating technology guarantees a powerful, consistent flow rate regardless of available water pressure. The showerhead features a 9-jet adjustable turbo massage that easily rotates from a gentle needle spray to a forceful jet. As the stream is non-aerated, the showerhead experiences less temperature loss — translating to maximum energy savings. Reduced water usage also reduces cost for heating water. For extra water and monetary savings, use the Soak & Soap® on/off valve while soaping.

Niagara Conservation Tri-Max™ 3-Flow Rate Aerators

Our Tri-Max™ Aerators feature three adjustable spray settings for optimal task performance and maximum water savings. The Tri-Max Aerators produce a pressure-compensated stream that performs well at any water pressure. Simply twist the faucet aerator to match the desired task: 0.5 GPM flow rate for soaping, 1.0 GPM for washing, and 1.5 GPM for a powerful rinse mode. These aerators are dual-threaded to fit both male and female threaded faucets: Male: 15/16-27, Female: 55/64-27. Model N3610CH includes a non-stripping thread component (dual-thread connection) which includes an install key. Threaded inserts are removable to hide threads when installing with female connections.

Niagara Conservation Tamper-Proof Faucet Aerators

Our Tamper-Proof Faucet Aerators produce forceful streams at a reduced flow rate that minimizes the amount of energy needed to heat water. Pressure-compensating technology guarantees a consistent flow rate across a wide range of pressure. These aerators are constructed of chrome-plated brass for durability. They cannot be installed, removed or tampered with without a special key, making these aerators perfect for commercial applications. These aerators fits standard size faucets: Male: 15/16-27, Female: 55/64-27.

SIMPLYCONSERVE™
Simply Conserve® Drip Gauge

Our Drip Gauge is an easy and effective way to calculate the gallons of water that may be wasted by leaking fixtures. The cylindrical cup displays gallons wasted on a daily or yearly basis, as well as metric readings for higher accuracy.

MODEL NUMBER	CASE QTY.
N3132-M	250

Shower & Faucet Flow Meter Bag

Our Shower & Faucet Flow Meter Bag helps measure the flow of showerheads and faucet aerators. The Flow Meter Bag is a calibrated, reusable and low cost way to calculate fixture flow in gallons per minute. Readings on the Flow Meter Bag for both the showerhead and faucet flow rate are indicated as low as 0.5 GPM.

CONSERVATION®

Niagara Conservation Adjustable Toilet Flapper

Our Adjustable Toilet Flapper is an easy-to-use and quick-to-install replacement for leaky flappers. It features an adjustable timer dial that allows the user to fine-tune the water usage from tank to bowl. This toilet flapper fits most 1.6-, 3.5-, 5- and 7-gallon toilets, is chlorine- and chloramine-resistant, and is guaranteed to prevent leaks for at least 5 years.

MODEL NUMBER	CASE QTY.
DPB010	1000

Leak Detection Tablets (2 Pack)   CUSTOMIZABLE

Our Leak Detection Toilet Dye Tablets are used to rapidly identify a leaky toilet, which can save thousands of gallons of water per year. Damaged flappers can leak water undetected down your drain. Simply place the Leak Detection Tablets into the toilet's tank, and if blue water appears in the bowl, there is a damaged flapper that needs to be replaced. These dye tablets are nontoxic, packaged in moisture-resistant packs and include easy-to-follow bilingual directions. Customizable Leak Detection Dye Tablet packaging is available.

N3140	3000

Toilet Tank Bank

Our Toilet Tank Bank is a water-saving product that's effective, low-cost, maintenance-free and user-friendly. The Tank Bank saves up to 0.8 gallons a flush and includes an anti-evaporation airlock so it never needs refilling. It is constructed of non-corrosive materials that resist microbes and fungal growth.

MODEL NUMBER	CASE QTY.
N3137	400

Fill Master™ Fill Cycle Diverter

Our Fill Master™ Fill Cycle Diverter is a water saving product for the toilet tank that saves 1/2 to 1-1/2 gallons of water per flush. The Fill Master™ Fill Cycle Diverter diverts the majority of water that would normally flow down the toilet overflow tube back into the toilet tank during the filling cycle. Tune the toilet with The Fill Master™ Fill Cycle Diverter to prevent excess water from needlessly flowing down the drain. It's an easy, inexpensive water saving product that makes toilets more water efficient. Available in bulk quantities or individually packaged with installation instructions.

Dish Squeegee™   CUSTOMIZABLE

Our Dish Squeegee™ makes doing dishes simple, fast and eco-friendly. According to the US EPA, pre-rinsing dishes before putting them in the dishwasher can waste up to 6,500 gallons of water a year. Simply squeegee off dirty dishes without pre-rinsing to save water and the energy used to heat it. The Dish Squeegee's unique and versatile three-sided shape makes it well suited for all size pots, pans, dishes, cups and jars. It's constructed of 100% silicone and is dishwasher safe. The Dish Squeegee™ makes a great gift, promotional item or addition to a water conservation kit or environmental impact reduction program.

SIMPLY**CONSERVE**™

Simply Conserve® Garden Hose Timer   **CUSTOMIZABLE**

Our Garden Hose Timer makes it possible to water the yard without the waste. Set the timer to water early in the morning during times of least evaporation and when it doesn't interfere with a schedule. Setting the timer prevents over-watering. The timer will automatically shut off when it has completed the watering cycle. It is constructed of a durable plastic housing and includes a brass connector. Ideal for watering the lawn, garden and micro-watering hanging baskets and potted plants.
