

## COMMERCIAL AND INDUSTRIAL

Franklin Energy has delivered excellence in commercial and industrial program implementation since our beginning. We have experience in every sector from healthcare to manufacturing and everywhere in between.

# Commercial & Industrial

## Experience You Can Trust

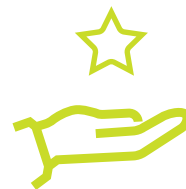

When you partner with Franklin Energy for your commercial and industrial program, you can expect expertise at every turn. As an industry leader in innovative C&I program design, we help your most energy-intensive customers reduce their consumption through a broad variety of unique solutions that yield impactful savings.

### STRATEGIC ENERGY MANAGEMENT

We provide comprehensive and effective energy efficiency strategies to deliver facility-wide savings to your customers. Our long-term approach consistently achieves energy performance goals.

### Custom Solutions

We deliver custom-designed programs featuring in-depth technical expertise that allow you to reach more customers through accessible energy-saving solutions targeted to a specific market. Empower your customers to reduce consumption through our technologies and dedicated services.

### Strategic Partnerships

Trust is a critical component of program success when serving the mid-sized industrial market. With 25 years serving the industry, Franklin Energy has established strong strategic partnerships, allowing us to deliver committed, consistent outreach to engage your hard-to-reach customers.

### Face to Face

We serve the market with dedicated energy advisors who meet your customers face-to-face, serving as a link to assessments, assistance, and incentives to make energy-saving improvements more approachable. Your customers will benefit from lower operating costs, improved air quality, and proper alignment with legislative and regulatory environments.
