# INSPIRATION

*"While daydreaming and longing to travel, I was browsing the web for exciting places to visit. When I came across this fascinating and powerful building in Dubai, The Twisted Cayan Tower. I was blown away and inspired by the architectural aesthetics of the tower.*

*The towers clean twisted lines, became the inspiration for the new FERRARA Collection and thus the main design element in the collection."* – Sif Jakobs

# FERRARA

Ferrara captures a movement frozen in time. It is twisted, sophisticated and edgy. It's everything you want to add to your wardrobe to bring a little sparkle to your outfit.

The Ferrara collection gives you the option to shifting from winter to spring/summer attire, packing down your hats and scarfs, having the space and freedom to play with your jewellery and upgrade the pieces in your jewellery box for the new season.

The collection offers classic jewellery pieces with the right amount of edge and elegance as a supplement to the Sif Jakobs Jewellery statement jewellery.

# CAPRI

Capri takes you back to the design DNA Sif Jakobs is known for, clean geometric shapes dipped into an ocean of sparkling zirconia.

This contemporary and industrial looking collection is offering endless possibilities to be creative with your own jewellery look. Whether it is for styling your casual everyday look or glamouring up your evening wear.

It's bold and edgy, radiating exclusivity and glamour. It's an eye-catching statement jewellery series, that can be worn individually or mixed together. Capri reflects a woman's confidence in a cool and empowering way. It proves that form and function can be one and the same. Capri is not to be unseen.
