

HousingWire Announces the 2021 HW Tech100 Mortgage and HW Tech100 Real Estate Honorees

March 1, 2021

IRVING, Texas — HousingWire is excited to reveal the winners of its ninth annual HW Tech100 awards, recognizing the most innovative technology companies in the housing economy.

The Tech100 program provides housing professionals with a comprehensive list of the most innovative and impactful companies that can be leveraged to identify partners and solutions to the problems that mortgage lenders and real estate professionals face everyday. Perhaps this year more than ever, these Tech100 winners have helped those in the housing economy create new processes and adopt new technologies to navigate the housing market under extraordinary circumstances.

Each year the Tech100 program grows more competitive and the applicants are increasingly impressive. For the second year in a row, the Tech100 program was divided into the HW Tech100 Mortgage and the HW Tech100 Real Estate to highlight the innovation and achievements of organizations within both sectors.

“After the uncertainty and unpredictability of last year, we expected a greater adoption of technology. However, these 100 real estate and mortgage companies took digital disruption to a whole new level and propelled a complete digital revolution, leaving a digital legacy that will impact borrowers, clients and companies for years to come,” said Brena Nath, HousingWire’s HW+ Managing Editor. “Knowing what these companies were able to navigate and overcome, we’re excited to announce this year’s list of the most innovative technology companies serving the mortgage and real estate industries.”

“I’ve been involved in choosing Tech100 winners since we started the program in 2014, and every year it manages to get more competitive,” HousingWire Editor and Chief Sarah Wheeler said. “These companies are truly leading the way to a more innovative housing market!”
