SUMMIT
2021

Session Notes:

<Session 5>
Topic: **Best Practices for Testing Workflows Built for Distributed Systems**
Moderator: Martin Schimak

Interesting Notes:

The practical test pyramid: https://martinfowler.com/articles/practical-test-pyramid.html

Mentioned libraries:
- https://github.com/camunda-community-hub/camunda-bpm-mockito
- https://github.com/camunda/camunda-bpm-assert
- https://github.com/camunda/camunda-bpm-process-test-coverage

High-Level Takeaways:

1) "What is a unit" was hotly debated - Niall will be launching a poll about it later 😅
2) What kind of testing is considered most important? 1) DMN testing 2) Simon will be releasing a community-maintained project around this in the near future! (link to come -- check github.com/camunda-community-hub for updates)
3)
