

Optimize Local & Global Payments Through a Single Integration

At BlueSnap, we look at payments a little differently. We understand that how you accept payments impacts your business, and we provide a comprehensive solution that simplifies the complexities of payments, allowing you to manage the full process. BlueSnap's Global Payment Orchestration Platform is designed to help you:

- ✓ Increase Authorization Rates & Lower Costs
- ✓ Support Multiple Use Cases
- ✓ Reduce Technical Debt
- ✓ Benefit from Value-Added Services

A Single Global Payment Orchestration Platform – Really

Our Global Payment Orchestration Platform allows customers to optimize their global payments and use our modular value-added services to their benefits. We've designed our platform to provide you with more control over important aspects of your end-to-end payment stack, allowing you to turn functionality on or off as needed. You receive all this through a single integration to our Payment API or hosted payment page, so you can:

- Accept payments in over 200 geographies with preferred global payment types and currencies to increase sales
- Benefit from local card acquiring in 40+ countries to reduce unnecessary costs
- Reduce technical debt through a single integration
- Automate fraud and chargeback management to avoid lost revenue and higher fees
- Get paid faster with our Invoicing & Billing solutions, including subscriptions & recurring billing and AR automation
- Ensure you're compliant with local tax requirements with built-in tax solutions

Trusted by Global Brands:
