- 6. You will see the BankLabs Construct logo pop up. Click "Add" to save the shortcut icon to your phone/tablet home screen.

7. Tap the icon on your home screen when you want to log in to Construct.

TIP: This shortcut acts just like opening a "new tab" on a computer browser. Every time you click it a "new tab" is opened in your default browser. It is important to remember to close your "tabs" frequently so that you do not have multiple sessions running at a time. See images below on how to view and manage your tabs.
