

Turning on Your Phone's Location Services

IPHONE:

- Open your Settings app
- Scroll to Privacy
- Click on Location Services (Makes sure this is turned on)
- Scroll to **Camera** – Make sure it is ✓ While Using this App and Precise Location is turned on – when finished hit back
- Scroll to **Photos** – and repeat the process above... Make sure it is ✓ While Using this App and Precise Location is turned on – when finished hit back
- Scroll to **Safari Websites (or whatever internet engine you use on your phone)** – and repeat the process above... Make sure it is ✓ While Using this App and Precise Location is turned on – when finished hit back

ANDROID:

- Tap the Settings application
- Tap Location
- Tap Google Location Reporting
- Tap Location Reporting
- Toggle the switch to On

You should now be set to take pictures and upload to BankLabs for GEO Tracking the location of the pictures.
