Farmhand® Nutrients

Our proprietary blend of granular nutrients for commercial growers. Granular nutrients keep shipping costs low while giving your crops a powerful boost. These formulas are optimized for each stage of growth with soluble compounds that maximize yield from start to finish.

Farmhand® form, grow & boost

When growing leafy greens, farmhand form, grow, and boost are intended to be used as a three-part formula. Together, grow, form, and boost are a flexible, balanced blend of macro- and micronutrients that promote rapid growth and tissue development in your plants.

This three-part system is specifically designed for recirculating systems to extend the life of tanks of water. The formula balances water by adding actively absorbed nutrients without oversupplying passively absorbed nutrients. The farmhand nutrient line is designed for use with phosphoric acid-based pH down products.

rapid growth

Note: farmhand grow and boost or farmhand bloom are used in conjunction with farmhand form but should not be used together.

Farmhand® form & bloom

When growing flowering plants, farmhand bloom replaces grow and boost and is used with farmhand form as a two-part formula. Similar to farmhand grow, bloom provides an optimized nutrient package. Bloom is formulated to promote flowering and increase flower yields.

Note: farmhand grow and boost or farmhand bloom are used in conjunction with farmhand form but should not be used together.

Farmhand® form 14-0-0

\$54.00

Farmhand form is the primary source of nitrogen in the farmhand nutrient formulas. It also fortifies water with calcium and magnesium.

When paired with farmhand grow and farmhand boost, this proprietary farmhand blend introduces the essential macro- and micronutrients needed throughout plants' vegetative phase. As a trio, form and the new farmhand grow and farmhand boost offer a complete nutritional program for a wide variety of crops.

Farmhand® grow 12-2-39

\$69.00

Farmhand grow contains macro- and micronutrients needed for healthy vegetative growth, complementing those contained in farmhand form.

This granular formula contains a biodegradable nutrient availability enhancer that has been proven to increase yields in over 900 trials and 40 crops across the world. When paired with farmhand form and farmhand boost, this newly redesigned grow formula improves plant growing consistency and can deliver up to 30% greater yields for leafy greens.

As a trio, form, grow, and boost offer a complete nutritional program for a wide variety of crops.

Frequency of Purchase:

Farmhand® boost 14-0-39

\$55.00

Farmhand boost supplements form and grow to accelerate vegetative growth with a high-nitrogen formula.

Farmhand boost is formulated for use with all farmhand grow and form products. Boost delivers two different nitrogen sources and sulfur throughout plants' growth to keep EC levels balanced, extend the life of your tanks' water, and power plant growth.

Designed to be paired with farmhand form and farmhand grow for a three-part nutrient regimen, boost is plants' secret superpower.

Frequency of Purchase:

One-time purchase or recurring subscription

Farmhand® bloom 2-26-41

\$69.00

Farmhand bloom is a high-phosphorus and -potassium water-soluble nutrient blend. Designed for flowering plants to improve nutrient conditions for better overall plant yield and flowering, it is a complement to farmhand form for flowering plants.

When paired with form, farmhand bloom rounds out a complete nutritional program for the vegetative and flowering phases through fast-acting, natural sources of nutrients high in phosphorous. High phosphate levels encourage early flowering and fruit set for most flowering and fruiting crops.

Farmhand® Supply Kits

We make restocking exactly what you need easy, so you never miss a beat! It's a breeze to replenish all your grow supplies with our curated kits and recurring subscriptions.

**Pictures shown are for display purposes only. Actual product may vary due to production shifts.*

Essentials Kit

\$380

Designed to provide you with everything you need for healthy plant growth, month after month. Available as a one-time purchase or monthly recurring subscription. Save 5% on all recurring orders when you subscribe.

What's included:

- Farmhand® form 14-0-0, (1) 5 lb bag
- Farmhand grow 12-2-39, (1) 5 lb bag
- Farmhand boost 14-0-39, (1) 5 lb bag
- Coco & Peat Moss Grow Plugs, case of 3,250
- 2.77 EC Calibration Solution, (1) 8 oz bottle
- 4.0 pH Calibration Solution, (1) 8 oz bottle
- 7.0 pH Calibration Solution, (1) 8 oz bottle

Frequency of Purchase:

One-time purchase or recurring subscription

Starter Kit

\$950

Designed for new farmers, this supply kit includes the key tools, accessories, and solutions you will need the day your farm arrives.

What's included:

- Spray Bottles, (2) 32 oz
- LED Grow Room Glasses
- pH Pen
- EC Pen
- Bonsai Shears, 60 mm
- Measuring Cup, 1,000 ml
- Table Top Counter & Scale
- Plant Stake Labels, case of 1,000
- Aphid/Whitefly Traps, 5 pack
- pH Down, (4) 1 gal bottles
- Coco & Peat Moss Grow Plugs, case of 3,250
- Zeroto 2.0, 2.5 gal
- Hygro-Thermometer

Frequency of Purchase:

One-time purchase
