

Digital Sign Ready (DSR) Introduction

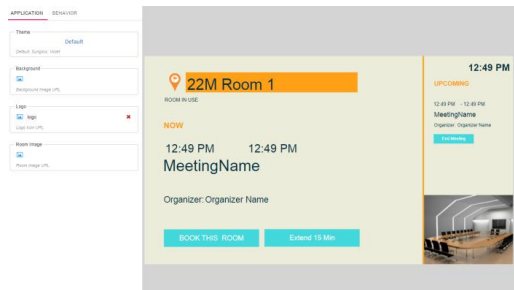

DSR by 22 Miles Inc. are ready-built, ready to bundle with hardware and ready to deploy digital and interactive signage. Unlike other entry-level digital signage solutions, 22 Miles' DSR include White Glove project services with CMS training and software installation/deployment assistance.

Room Booking Ready Software/Service Bundles Include:

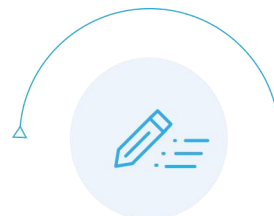

1 SaaS software license to be installed on certified hardware and operating systems; includes tech support and cloud hosting

2 

Web-based CMS with Quick Edit and Pro Edit ready templates; choose your template, re-brand and edit content, then drag and drop to customize

3 White glove project services to assist with project setup, training and deployment; Includes Office 365 and Google Calendar integration
