# Digital Sign Ready (DSR)
Introduction

DSR by 22 Miles Inc. are ready-built, ready to bundle with hardware and ready to deploy digital and interactive signage. Unlike other entry-level digital signage solutions, 22 Miles' DSR include White Glove project services with CMS training and software installation/deployment assistance.
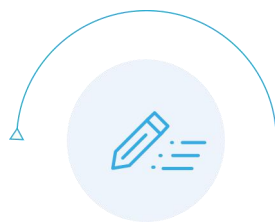

Touchscreen Ready Software/Service Bundles Include:

1
SaaS software license to be installed on certified hardware and operating systems; includes tech support and cloud hosting

2
Web-based CMS with Quick Edit and Pro Edit ready templates; choose your template, re-brand and edit content, then drag and drop to customize

3
White glove project services to assist with project setup, training and deployment; 22MILES Content / Data Service available as well
