

# Digital Sign Ready (DSR) Introduction

DSR by 22 Miles Inc. are ready-built, ready to bundle with hardware and ready to deploy digital and interactive signage. Unlike other entry-level digital signage solutions, 22 Miles' DSR include White Glove project services with CMS training and software installation/deployment assistance.

## Video Wall Ready Software/Service Bundles Include:

- 1 Perpetual software license to be installed on certified hardware and operating systems; initial year support and cloud hosting

Web-based CMS with Quick Edit and Pro Edit ready templates; choose your template, re-brand and edit content, then drag and drop to customize

- 3 White glove project services to assist with project setup, training and deployment; tablet controller setup assistance available as well

## Video Wall Ready

- Quick Edit Ready templates with content zones ready for Dynamic Media Playlists with Transitions
- Schedule content switching from split-screen to across-screen
- FREE content controller app for IOS/Android tablets
- Perpetual DSR License Bundles available in 2, 3, 4, and 6-screen configurations, with annual CMS, support and hosting renewal bundle required starting 2nd year
- Video wall player hardware validation required, however for sample reference, specs would be as follows for up to 6 HD displays\* :

WINDOWS 10 Enterprise; Intel NUC8i7HVK, i7-8809G (Benchmark: 11037); 16G RAM, 240GB M.2 SSD

## Product Part #

- ① VW-2DSP-WIN
- VW-3DSP-WIN
- VW-4DSP-WIN
- VW-6DSP-WIN

## Support / Hosting Renewal Part #

- ① VW-2DSP-SPHO-1YR
- VW-3DSP-SPHO-1YR
- VW-4DSP-SPHO-1YR
- VW-6DSP-SPHO-1YR

\*Note: for daisy-chain setups with a single-port player, see VW-2SP-WIN; example, a 1 x 4k player (i5 7260U or better) is common for a 2x2 daisy-chain video wall
