

UnCruise[®] ADVENTURES

HEALTH & SAFETY PROTOCOLS

Updated May 20, 2022

Starting Friday, May 20th, UnCruise Adventures asks guests and crew to adhere the following:

Vaccination & Booster Shots (no changes)

- Full vaccination for all guests and crew is required.
- First booster shot for all guests and crew is required.
- We strongly recommend additional booster shots (beyond the first) as recommended by CDC.

Pre-Cruise

- For two weeks prior to your departure from home, please limit yourself to activities that are physically distanced from others, unless masks are employed as a reasonable precaution.
- COVID-19 testing prior to departure from home is requested, as being a good citizen and ensuring you are not traveling with the COVID-19 virus. This is not a requirement.
- Transiting to the destination via aircraft or other public transportation, please employ masks as a reasonable precaution.
- In our departure towns, please be careful when in bars, restaurants and other places that are higher risk. Mask use will provide the necessary precaution.
- **Onboard UnCruise Vessels**
- Masks are required on the interior or exterior of the vessel when physical distancing cannot be achieved.
- Physical distancing is defined as being more than 6 feet from a non-cabin mate for more than 15 minutes in a 24-hour period.
- Mask use while actively eating or drinking, is not required.
- Mask use on deck and ashore is not required unless physical distancing cannot be achieved.
- **Testing for COVID Variants**
- Currently, we do not require pre-board testing. However, COVID-19 testing prior to departure from home is requested, as being a good citizen and ensuring you are not traveling with the COVID-19 virus.
- Symptoms and severity of a variant infection, amongst vaccinated and boosted people, can be very mild to a significant cold. Antigen testing is available onboard if symptoms arise.
- **Isolation After a Positive Test**
- Should any guest or crew member test positive while aboard, CDC guidance is for a 5-to-10-day isolation period, depending on the severity of symptoms.

- Taking the above precautions to heart will go a long way towards keeping guests on their vacation, and
- crew fully employed. Being aboard our vessels creates a unique situation for dealing with COVID-19
- since guests and crew are together in close quarters for days, albeit often in the outdoors. We will
- continue to monitor multiple health sources to provide the most accurate and practical mitigation
- techniques to prevent the spread of COVID-19.

Frequently Asked Questions Concerning Vaccinated Cruises

Vaccination

Will I be required to have a "booster" shot to sail with you? Yes, all guests and crew will be required to have a single COVID-19 booster to sail. UnCruise Adventures will continue to follow the CDC guidelines regarding boosters.

Testing and Vaccines for COVID-19

1. Do I need to have a COVID-19 vaccination prior to cruising? What documents will you accept as proof of vaccination? Yes, all guests regardless of age are required to be fully vaccinated and boosted prior to boarding our vessels. Guests will be required to submit proof of vaccination in the form of an original vaccination record issued by the country's health authority administering the vaccination or by your medical provider who administered the vaccination. A copy of your COVID vaccination card must be provided no more than 30 days prior to departure.

2. Do I still need a PCR/rapid test prior to boarding? No. With the current changes in mask mandates and our relaxation of mask requirements on board, you will also *no longer be required to provide a PCR/rapid test to board*. You will still be required to be fully vaccinated and have a single booster.

3. What vaccines are accepted by UnCruise Adventures? We will accept any of the nine vaccines approved by the World Health Organization (WHO) and that will be accepted for entry into the US. See accepted [vaccines here](#).

4. I have had and recovered from COVID-19, and as a result I will test positive, but I am not contagious. Is there a way for me to travel with you? Testing is not currently required. All guests, including guests who have recovered from COVID, must be fully vaccinated, including booster shots when eligible.

Life on Our Adventure Boats

1. Will you require masks onboard?

- Masks are required on the interior or exterior of the vessel when physical distancing cannot be achieved.
- Physical distancing is defined as being more than 6 feet from a non-cabin mate for more than 15 minutes in a 24-hour period.
- Mask use while actively eating or drinking, is not required.
- Mask use on deck and ashore is not required unless physical distancing cannot be achieved.

2. Am I at risk while onboard? It is possible for fully vaccinated people to contract COVID-19, which is why everyone aboard is encouraged to wear a mask. You should also wear a mask when on public transportation or when requested by UnCruise to wear a mask in ports.

For COVID-19 and many other forms of illness, the health and safety of everyone onboard is intricately linked together. Our onboard cleaning and sanitization protocols along with the cooperation of all guests with hand washing and use of hand sanitizers are designed to prevent the spread of all types of illness, not just COVID-19. This is a communal effort.

3. What will happen if a vaccinated person tests positive for COVID-19 onboard the boat? The individual will be isolated in their cabin along with any others that test positive. Medical authorities will be contacted and advised on the condition of the guest (s). Due to vaccination, the person may be allowed to stay aboard in isolation based on a professional's direction.

4. Is UnCruise operating at reduced capacity? Depending on the vessel, we may hold cabins to provide for isolation as needed.

Pacific Northwest Coronavirus Updates and Protocols

Updated May 5, 2022

All crew and guests must be fully vaccinated against COVID-19, including booster shot. This information must be uploaded via the [Guest Portal](#) at least 30 days prior to departure.

Masks will be encouraged but not required.
