### YOUR ITINERARY

#### A TYPICAL DAY

No two days are alike on an expedition-style vacation. Each one is filled with a new area to explore, either by hiking, horseback, mountain bike or van. One day you may choose to do a full-day hike to the base of the Towers, two ½-day tours, a ½-day horseback riding tour and then a spa appointment, or you can just relax in the pool and get caught up on your book while taking in the views of Lake Sarmiento and the Towers.

When you return back to the hotel, you will have time to meet with the expert guides to make sure you have your excursions in place for the following day before gathering for a drink in the bar or heading right to dinner where we can share about our adventures we each had that day and what you have planned to do for the following day. 'Early to bed, early to rise' is a common theme of these adventure trips.

### GUEST ROOM MAP

### DINING

Having spent the day exploring the rugged wilderness of Patagonia, there is no feeling quite like returning home to a warm meal, great service and a top-notch view to match. This Patagonian cuisine is an irresistible mix of hearty stews, slow-cooked soups and tasty dishes, sourced from the nearby estancias surrounding the lodge. The contemporary approach to both cooking techniques and the ingredients used result in a broad, varied menu suitable for all tastes, preferences and diets. The onsite chef prides himself on serving up sophisticated dishes, akin to those found in top-notch city center restaurants which, in this entirely remote location, is all the more indulgent.

## ACTIVITY LEVEL

This trip requires a moderate to high level of mobility, as the hotel has no elevators and is spread out so all of the rooms have a view. Wheelchairs and scooters cannot be accommodated in the vans used on excursions as they do not have lifts or places to store them. The excursions themselves are quite physical with offerings like hiking, biking, horseback riding, etc. However, there are a few scenic drives and walks that are considered 'easy.' If you do have limited mobility, you are required to travel with someone who can assist you.

## TRAVEL INSURANCE

Due to the remote location of the Tierra Patagonia Adventure Spa Hotel, Olivia strongly recommends that you purchase travel insurance that includes medical coverage as well as emergency medical evacuation coverage. The nearest hospital is 4.5 hours away and the nearest medical facility is 1 hour away.

## VACATION STRETCHERS

### 1-Night Santiago Pre-Stretcher

### 3-Night and 2-Night Santiago Post-Stretchers

Santiago is the capital and largest city in Chile and sits in a valley on the canalized Mapocho River, surrounded by the snow-capped Andes and the Chilean Coast Range. The city was founded as Santiago del Nuevo Extremo, Santiago of the New Frontier, in 1541 by the Spanish conquistador Pedro de Valdivia. Prior to the Spanish settlers taking over and ruling the area, the original inhabitants were the Picunche Indians.

### 5-Night Easter Island Pre-Stretchers

Isla de Pascua, also known as Easter Island and to locals by its indigenous name—Rapa Nui—is an isolated volcanic island and Chilean territory in Polynesia. It's famed for its archaeological sites, including the nearly 900 monumental statues called moai that were created by inhabitants during the 13<sup>th</sup> through 16<sup>th</sup> centuries. The moai are carved human figures with oversize heads, often resting on massive stone pedestals called ahus; Ahu Tongariki displays the largest group of upright moai.
