

# How To Reach Us

## Cable Location – Call us Before you Dig

Before you dig in areas where telephone cables are buried, please call our repair service first at 1-888-336-4466 or the Arkansas One Call System at 811 or 1-800-482-8998 where the personnel will locate any cables in the area free of charge. A cut cable causes trouble, added costs and service blackouts. The calls and conversations you cut off can be someone with a health emergency trying to get aid, someone trying to reach the fire or police department or a customer with an important business call.

The costs of repairing a cable you damage could be billed to you!

Business Office .....358-4400

Repair Service ..... 888-336-4466

Time & Temperature.....358-3333

### Directory Assistance – 411

Dial 411 and get ANY number ANYWHERE in America and Canada and get connected. 411 is the only number you need to know. You can also visit [411.com](http://411.com) to find contact information.

# Alphabetical Telephone Directory

This telephone directory has interlocked listings. The exchanges are listed below with the prefix that appears before the telephone number which identifies the exchange in which the customer receives service.
