## *about the* **MISTAKES**

- Please remember this is a student publication, not a professional one. Just like you're learning to write English essays & do calculus problems, we're learning to create a yearbook.
- Yearbook is the only class where all assignments & homework are published in a book for everyone to see. Forever.
- Believe us, we've seen the mistakes & we are annoyed about the. We wish we could change them, but we can't.
- We work hard to produce an accurate account of the year & to proofread, but there are bound to be mistakes
- The yearbook is put together by human beings, who are well, human.
- We hope you can have compassion & laugh with us about our goofs. Please focus on all the amazing things the book has to offer.
- If you have a complaint or a recommendation, please put in writing & suggest a way to solve the issue for future books.
- Joining our staff is great way to help us improve. See Mr. Bohnert

- And yes, we know this headline is misspelled. It's a joke!

# MISTAKES

It's a huge bummer that no matter how many times we proofread, there are a few mistakes. We ask you to remember that the yearbook is a student publication. We make every attempt to produce an accurate account of the year, but we occasionally miss things. If you have a recommendation for next year, please... put it in writing, suggest a way we can solve the problem and bring it to Ms. Adams in Room 119.
