LifeDefender Cabinet Frames

Austin's LifeDefender Cabinet Security Frames have been designed to provide a solution to meet the *SAE, CAAS GVS & NFPA safety standards. Our engineering team has been working for years with the industry to aide in the development of newer, better, safer occupant safety standards. Our in-depth understanding of these standards has led us to design a unique cabinet frame system that helps ensure the standards are met.

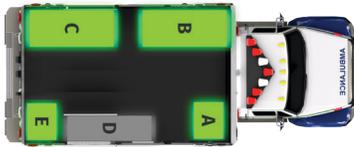

Your Vehicles Save Lives

Security + Functionality = LifeDefender

Our sliding and swing access frames increase the safety and security of the vehicle in an accident due to the latching mechanism on our panels.

- **Easy To Open** – One-handed opening
- **Easy To Close** – Slam closing with auto-latching feature
- **Designed For Impact** – Overlapping stiffeners distribute outward impact across panels

LifeDefender Protects You and Your Patients During Travel
