

ROFF[®] MILLING

MACHINES THAT DRIVE SUCCESS

C6 CLEANER

Medium Capacity Grain Cleaner

Designed for thorough grain cleaning, the C6 Cleaner is ideal for pre-cleaning maize or most grains. With its large capacity, the C6 is also equipped with a fully adjustable aspirator and interchangeable screens. Easy to install with low maintenance requirements, this machine is ideal for medium-sized milling operations looking for a cost-effective general grain cleaner.

MACHINES THAT DRIVE YOUR BUSINESS

Product Specifications

Performance:

Maize Cleaning Rate	4 000 kg/h
---------------------	------------

Technical Data:

Number of Motors	2
Motor Power	0.55 kW and 1.1 kW 380V
Number of Screens	2
Screen Surface	590 x 1010 mm
Weight	+/- 320 kg
Crating Dimensions (L x W x H)	2100 x 1450 x 1700 mm
Add-Ons	Dual Bagging Outlet

Highlights

- > High capacity cleaning rate
- > Low power consumption
- > Fully adjustable aspirator ensures efficient cleaning
- > Interchangeable screens for cleaning different products
- > Easy installation
- > Low maintenance
- > Cost effective
