MACHINES THAT DRIVE SUCCESS

## CONVEYOR BIN

### Product Storage

The versatile Roff Conveyor Bin is used for packaging and storage of grain or final maize meal products. An ideal multi-purpose addition to any small or start-up milling operation, the unit can be used as a flow control bin or as a packing bin. Consisting of a bin, access ladder and shut-off gate for easy transport, the Conveyor Bin adds efficiency to your milling business.
