MACHINES THAT DRIVE SUCCESS

## CRUSHER 150

### Crushing Hard Grain

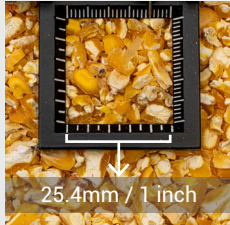

Produce top-quality, nutritious animal feed with Roff's affordable and efficient Crusher 150. With a durable and adjustable roller system, this machine effortlessly cracks and crushes a variety of hard grains, creating a superb homogenous end-product. Compact, easy to install and operate, the Crusher 150 is the ideal addition to small-scale dairies, piggeries, livestock farms and small breweries.

# MACHINES THAT DRIVE PERFORMANCE

## Capacity and Specifications

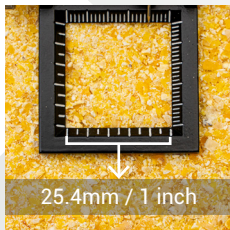

Course at  
5650 microns:

Medium at  
3700 microns:

Fine at  
2360 microns:

Production rates maize grit:

Course: 90% through 5650 microns (5.65mm)	1800kg/h
Medium: 90% through 3700 microns (3.7mm)	750kg/h
Fine: 90% through 2360 microns (2.36mm)	450kg/h
Malted barley, wheat and other grains	900 - 1200kg/hr
Number of Rollers	2
Roller Size	150 x 190 mm
Motors	1 x 2.2 kW 380V
Starters	Direct On Line (DOL)
Weight	+ - 300kg
Crating Dimensions (mm)	1200(L) x 800(W) x 1500(H)

## Highlights

- > Low power consumption
- > Adjustable rollers for desired grit size
- > Durable, long-lasting rollers
- > Rollers can be sharpened when blunt
- > Second roller is V-belt driven
- > Low dust and noise levels
- > Affordable value for money
