

ROFF[®] MILLING

MACHINES THAT DRIVE SUCCESS

70L HORIZONTAL BATCH MIXER

Effective Mixing

The Horizontal Batch Mixer is ideal for efficient product mixing. Through lifting, scooping and crisscross paddle mixing, ensures a homogeneous end mix. Compact, quick to install and easy to use, this machine is perfect for small-scale livestock and horse farms. The 70L Horizontal Batch Mixer is also a cost-effective way to enhance your milling process in any small-scale milling business.

MACHINES THAT DRIVE YOUR BUSINESS

Performance of Main Product

Litres per batch	70L
Mixing time per batch	4 - 5 min
Number of Motors	1
Motor Power	0,37 kW @ 380V
Starter	1 x Direct Online
Crating Dimensions (L x W x H)	1400 x 800 x 1500mm

Highlights

- Open paddle and shaft design mean more effective cleaning
- Outlet facing paddles ensure self-emptying of mixture
- Outlet is made with quality laser cut parts and an adjustable cam system
- Easy installation
- Minimum maintenance
