

MK2S

Maize Roller Mill

The MK2S is the ideal machine for producing good quality special maize meal. This machine is compact, fast to install and easy to use. Bran is separated from the meal during the milling process in two stages to ensure a fine white end product. Ideal for use in rural areas and for small milling operations.

MACHINES THAT DRIVE PERFORMANCE

Capacity and Specifications

Performance:	650kg/hour
%Flour < 777 micron:	80 - 85%
Starters:	Direct On Line (DOL)
	Forward/reverse switches
Number of motors x 2:	5.5kW, 7.5kW
Number of rollers, 450 x 191 mm:	4
Weight:	± 1100kg
Shipping Dimensions (mm):	2900(L) X 1100(W) X 2200(H)

Highlights

- > Low power consumption
- > Adjustable rollers for optimal extraction rates
- > Removable screens for easy cleaning
- > Rollers can be sharpened when blunt
- > Light and durable stainless steel screens in aluminium frames
- > Easy installation and minimum maintenance required
- > Low noise levels
